Ms. Katie Scharf, Librarian
LakeView Branch Library
2845 N. Sherman Ave
Madison, Wi 53704

Dear Mrs. Scharf:

The books in your library fashion my lifeline to the world. As you know I am a regular patron and make use of your resources daily. Two books I have just completed are *More than Just Race* and *Take the Risk*.

Because of our many conversations about different sources of publications I know you and I are aware of your excellent ability to retrieve for me almost any publication I request.

I have attached the table of contents from my list of publications I have read, and the last full page from the section on Psychology, Economics and History to show you the resources I use from your library.

To have these resources reduced would be a very great loss to me and I am sure to many others.

I feel that any reduction in library funds should and could be offset in some manner, whether private or public.

I hope this letter will make others aware of the constant need for your excellent library services.

Yours truly,

Gerald S. Snow

(Former English Major and Labor Market Economist Supervisor)

AN ENGLISH-JOURNALISM-ECONOMICS-THEOLOGY READING LIST

Gerald Snow
