

## Our Staff

The teachers at La Petite are dedicated to the children in our building and it shows in their lesson planning and their willingness to go above and beyond each day!

Many of our teachers are wanting to continue their education and are perusing scholarships to help them meet their professional goals.

Accreditation could make many of these goals attainable! With the 25% increase in Wisconsin Shares that we would receive with becoming a 5 star program, it would allow us to put more money into salaries and programming.

## Administration

### District Manager

Kim Busch

1-262-839-4754

kbusch@learningcaregroup.com

### Director

Jenny Rowe

## LA PETITE MONONA

6500 Bridge Rd, Monona  
WI 53713  
608-222-0328

Even though our center is located in the city of Monona we, serve many families that reside in Madison.

We currently have 68 children enrolled in our school. 45 of these children live in within the City of Madison limits. We have 20 children that receive Wisconsin Shares.

Every day we receive inquiries about our facility from families that need a safe, and fun place for their child that offers a great curriculum, and that is affordable. Some of these families do struggle to make ends meet and don't always qualify for Wisconsin Shares. Partnering with the City of Madison would help eliminate the dilemma parents face of choosing a childcare facility based on affordability alone.

## Curriculum

Our curriculum provides our very own School Readiness Pathway that addresses the developmental needs of the children within the building.

The comprehensive curriculum focuses on every aspect of life in the classroom: the environment, teacher-child interactions and planned learning activities.

The curriculum is user friendly, and makes the planning process fast and exciting!

Learn From the Start, Learn As We Grow, and Learning Care System are our unique curriculum levels that build off of one another and allow the teachers to help prepare our students for the next phase of their learning careers!

Adding the City of Madison Standards to our curriculum will be an easy transition and will allow us to enhance the children's learning and keep them on the School Readiness Pathway!

## Preparing for Accreditation

- City of Madison Program Standards have been passed out to all teachers and staff
- Changes to meet the standards have already begun
  - Infant room: Removed all bouncy chairs and swings
  - Adding more natural items to all classrooms
  - Staff are pursuing higher education and applying for scholarships
- Teachers are excited to have the chance to use the City of Madison standards to enhance their classrooms and personal teaching styles
