The Ultimate Recyclable

I was contacted to move a house by Cliff Fisher at 119 North Butler in Madison, WI. The house needed to be levelled in order to be moved and remodelled because the foundation was out of square and collapsing. Heritage movers put the beams in the house to move and level not to raise it. If the house is to be raised, and dig under, the house would have to be moved out of where it is to a temporary site. The new foundation would have to be put in then the house brought back and put on new foundation at 119 North Butler.

Dear Members of Planning Commission

I was a resident at 119 N Butler for about 2 years. While the management was good, the property itself was in disrepair. It was almost unlivable. Today Mr. Fisher showed me the beautiful new unit that has been built. It is spacious clean and very well built with a state of the art bathroom. I hope you will approve the movement of this unit as it will be a valuable asset to the city.

Sincerely,

Megan M. Gosty

To Whom It May Concern,

Cliff Fisher's beautifully refinished house on 119 North Butler Street will look great on the corner of Johnson and Blair Streets. Please approve this move.

Sincerely,

Yvonne M. Vitense
