Hi Stuart:

It was not the Block 100 Foundation's idea to have the matter referred. It agreed to the request for referral on Friday.

Please don't characterize the referral as being at the "request of the Block 100 Foundation", since it was requested by the UDC Chair.

I would suggest the next meeting would be appropriate.

The project team will not be attending tonight.

Thanks.

My best,

George

George

Are you requesting that Landmarks refer the Block 76 project this evening? If so, until when?

thanks,

Stu
