

Table 1: SWU Credits

Credit	Sub category	Metric	Pervious Area (sf)	Impervious Area (sf)	Reduction Percentage	Pervious square foot reduction	Impervious square foot reduction
Residential	Rain Garden	Storage Volume of Rain Garden	NA		Conveyance portion of 3 sf / cubic feet of storage		
Residential	Rain Barrel	Storage Volume of Rain Barrel	NA		Conveyance portion of 1 sf / 2.5 gallon of storage		
Conveyance	Direct Drainage	Lake Mendota, Lake Wingra, Lake Monona, the Yahara River, Wingra (Murphy) Creek, Nine Springs Creek, or Starkweather Creek			61.32%		
Conveyance	10-yr No Runoff	Storage volume or Storage plus infiltration if stamped by P.E			64.42%		
Conveyance	Wetland	Wisconsin Wetland inventory GIS layer from surface water data viewer or Delineated Wetland			100.00%		
Conveyance	Forest	land is continuous canopy forest		N/A	24.00%		
Conveyance	Prairie	land is native prairie not mowed more than 2 times a year		N/A	27.80%		
Pollutant Credit		80% TSS reduction			35.58%		
Rural	Recent Annexations	The property drains to a ditch or ditches, without improved storm sewer facilities; and is not receiving services from City of Madison’s water or sanitary sewer			64.42%		
			Acres	Square Feet			
Agricultural	Single Parcel	If greater than 5 ac then reduce to 5 ac but keep all impervious			Reduce to 5 ac total		
Agricultural	Multi-Parcel	ii. Parcels that were legally subdivided solely as a result of annexation treated as a single contiguous parcel.			Reduce to 5 ac total
