Greetings Alder Harrington-McKinney,

Thank you for reaching out and sharing the resident concern with us! I want to provide an update on this.

We have added Piping Roack Rd near Sunridge Park to our Safe Streets Madison program candidate list for evaluation of traffic calming, including potential speed humps or other appropriate safety measures. As we have received a large number of similar requests citywide (nearly 650 of them right now) and we have limited budget and staff resources, we have to work with the Transportation Commission to prioritize them based on safety, impact, equity, and cost considerations. We have funded about 210 projects since 2022 with this new program, but the demand still far exceeds our budget capacity. We will see whether we can prioritize the project with the upcoming funding cycles. If residents would like to learn more about the Safe Streets Program, more information and the most recent updates are available on our website:

<https://www.cityofmadison.com/traffic-engineering/traffic-safety/safe-streets-madison>

Hope this helps, and please don't hesitate to let us know if you have any questions.

Best,
Yang

Subject: Re: [District 20] Speed concerns on Piping Rock Road

I am forwarding this email from a District 20 consistent. I continue to have concerns related to speeding in this area. During school, concerns were expressed related speeding in this area. Is this area designated as an attention area related to Safe Streets Madison?

Speed concerns on Piping Rock Road Hello Barbara,

We are having a number of concerns on our street (near Sunridge Park) with drivers and excessive speed. The average car heading down the street toward Whitney Way is probably going well over 30 MPH, and it's particularly concerning so close to a busy park. I am wondering if it's possible to look at getting speed bumps on this section of our road at all? Or what other options we may have?

Thank you!
