Subject: Grandview Commons Town Center
Importance: High

I apologize for the short notice of this e-mail regarding the above matter which is on the agenda of the Plan Commission tonight. I would appreciate if you might distribute this e-mail to the Commissioners.

I am sending this as an individual since we live at [REDACTED] Copernicus Way - two blocks from this site. In May, 2015, we bought this house partially because it was located very close to Metro Market. I know that this store was quite controversial but we felt that a nice grocery store so close to our home was a major asset. We have not been disappointed at all. Our experience with this store is the main reason why I am so supportive of this development. Madison has talked about developing a traditional neighborhood on the fringes of the City for an awfully long time. This project would be the retail component which would make Grandview Commons a vibrant neighborhood that the City would be proud of.

Michael
