Shiva, Have you seen the very well written and researched letter that several members of the Southwest Path Alliance sent to Alders Clear, Rhodes-Conway, Johnson, Clausius, Phair and Rummel? I agree with their point of view which recommends lights on the path, but not the type and height of the ones in the current City plan. I think delaying the project for right now is the very best course of action. You may remember that I co chaired Mayor Dave's Platinum Bicycle Committee from 2006-2008 and have been actively involved in bicycling as an important transportation mode in the context of a multimodal transportation system. I cannot attend the hearing tomorrow because of a family matter, but would be happy to have you convey my recommendation to study the matter further. Best and thanks, Mary
