SPECIAL NEIGHBORHOOD SECURITY AND PARKING PLAN

The applicant, the University of Wisconsin, agrees to abide by the following arrangements for the duration of the 2012-2013 Camp Randall Street Use Permit for the UW Athletic Department:

1. During all Wisconsin Home Football Games:

No Access: No private vehicles shall be permitted on Breese Terrace: (1) one hour before the scheduled start of the game through the opening kick-off; (2) from the halfway point of the fourth quarter of the game until one hour after the conclusion of the game; or (3) at any time that police or security personnel determine it is a hazard to pedestrian or traffic safety.

Ingress/Egress for Residents of Breese Terrace: Upon presentation of a picture ID, residents with driveway access solely on Breese Terrace shall be allowed unescorted vehicular ingress and egress onto Breese Terrace during the first several hours of each permit prior to one hour before the scheduled start of the game time and just after the opening kick-off until the end of the 3rd quarter.

Dog Sniff: Upon entry onto closed Breese Terrace, a trained dog must sniff the vehicle for explosives, and the vehicle will be searched if there is a probable cause for a warrantless search. If a dog is not available, a search will be conducted by officers.

2. During alert for increased level of security: The ingress restrictions above shall apply during an alert for increased security. Residents who live on Breese Terrace, north of Summit Avenue and who have vehicular access to their residences off of Hoyt Street, will be allowed vehicular egress under the following conditions:

Residents must call the UW Police a week in advance of each game if they are requesting permission to remove a vehicle from their premises during a game. Allowances will be made if the security level is increased to Orange less than one week in advance of a game.

Residents must call a dispatch number, to be provided, to request permission to leave 15 minutes prior to the time they wish to depart with a vehicle.

UW Police or authorized security personnel will come to the resident's home within 15 minutes (absent an ongoing emergency) and the vehicle the resident intends to depart with will be sniffed for explosives by a trained dog. The dog sniff must be completed before the resident is permitted to leave.

Each such resident will only be allowed to leave in a vehicle one (1) time during the duration of the street use permit for each game.

The UW Police is prepared to provide this arrangement for egress during an increased level of security for the first five (5) residents who request it for each game.

3. Additional Parking Outside the Perimeter of the Street Use Permit: Under both scenarios above, arrangements will be made for Breese Terrace residents to park at alternate locations, to allow easier access to their homes without utilizing the above procedures, if they are willing to walk to and from their vehicles. UW will make available limited parking spaces at nearby parking lots for residents of Breese Terrace needing access to their vehicle during the game on a first come first served basis. Further, the UW will attempt to provide parking at Randall School for Breese Terrace residents needing to use their vehicles during the period of the street use permit and will investigate providing transportation for disabled and/or elderly Breese Terrace residents who need assistance in accessing their vehicles off-site. Specific information for utilizing this alternative parking plan will be communicated by UW to the Regent Neighborhood stadium representative.

MEMORANDUM OF UNDERSTANDING
Between the University of Wisconsin-Madison,
its Division of Intercollegiate Athletics & the
Dudgeon-Monroe, Greenbush, Regent and Vilas Neighborhoods
June 25, 2003

History of the Relationship

Since 1990, the Athletic Department has shared information and consulted with the Regent Neighborhood Association on Field House and Stadium operations issues. These exchanges were frequent, but ad hoc, usually focused on special event planning (concerts, Drum Corps International, State High School Championships), athletic event schedules or transportation issues. The Kohl Center project engaged both the Greenbush and Vilas Neighborhood Associations in pedestrian, traffic and parking plans from 1996-1998.

In 2000, discussions began on renovation plans for Camp Randall Stadium. Numerous meetings with representatives of Regent, Greenbush, Vilas and Dudgeon-Monroe Neighborhood Associations, alders, City staff, Urban Design, Plan Commission, and City Council members were held. The project was approved in January 2002, subject to 51 conditions, the most significant of which required a formal Memorandum Of Understanding (MOU) to be developed between the Athletic Department and the four neighborhood associations regarding stadium operations. This document is intended to fulfill that condition and create formal structure to plan and execute stadium events.

Reason for this Agreement

The parties wish to continue the spirit of cooperation which has developed in recent years, but they recognize that there will inevitably be issues, and potentially conflicts, about stadium operations which may arise in the future. The neighborhoods and the university need a continuing forum for discussion and a method for solving problems. The goal of this document is to create a formal process for exchanging information and making decisions on the management of stadium events. It provides an annual schedule for planning and evaluating stadium operations involving the university and adjacent neighborhoods.

Parties and Their Responsibilities:

- a. UW Athletics Department: The Stadium Event Manager will coordinate Athletic Department staff and operational support for this agreement. This position also chairs the Stadium Operations Committee, which is responsible for implementing the agreements and convenes the Transportation Management Planning Committee which manages traffic, bicycle and pedestrian circulation, and parking for stadium events.

- b. UW Chancellor's Office: The Special Assistant for Local Affairs will represent the Chancellor's office in developing and executing the event plans developed by the Stadium Operations Committee with the neighborhood associations.
- c. UW Police Department: The Special Events Officer will represent the UW Police Department in developing and executing the event plans developed by the Stadium Operations Committee with the neighborhood associations. The University Police are responsible for stadium security issues.
- d. Madison Police Department: A Neighborhood Liaison Officer will be designated to establish liaison relationships with the neighborhood associations listed below to communicate about neighborhood issues. The Madison Police Department will meet with the UW Police Department to discuss neighborhood police patrols on event days, and will participate in the annual pre-season and post-season meetings at which the operations plans are introduced, reviewed and revised.
- e. City of Madison: The Mayor's Office and any City departments with concerns relevant to stadium operations, e.g. planning, zoning, streets and transportation, will participate as needed.
- f. Neighborhood Associations: The Regent, Dudgeon-Monroe, Vilas and Greenbush neighborhood associations each agree to send a representative to the meetings held to draft this agreement, to attend whatever meetings are called pursuant to its implementation, to identify a person to serve as liaison to the Madison Police Department, to designate a contact person to learn of stadium-related issues in the neighborhood, and to communicate with the membership of the organizations about issues discussed in these meetings. An alternate may be designated for any of these responsibilities in order to insure continuity of participation.

Representatives of each of the parties listed above will meet a minimum of once before every football season and once after the season is over. At the pre-season meeting in May, plans and schedules for the upcoming year of stadium events will be reviewed. At the post-season meeting in January, the parties will evaluate how the operations plans worked and recommend changes for the coming year. Representatives of each of the parties listed above will attend Stadium Operations Committee meetings. The neighborhood associations together shall choose one representative and one alternate to attend these meetings.

Documents Incorporated: The MOU sets forth certain basic principles, goals and commitments to be addressed at least annually by the parties. The details of implementation are contained in the following management plans and other relevant documents, some of which will be revised from year to year, and an example of each is attached for reference.

- a) Stadium Management Plans: The UW's Stadium Operations Committee produces, for every event attended by more than 2000 people, a "final profile" which outlines in detail the responsibilities of everyone involved in managing the event. These plans may vary from one event to another, but a sample profile will be available for review by any of the parties to this agreement.
- b) Transportation Management Plans: Since 1998, a group including staff from the UW-Madison's Athletic and Transportation Departments, the City of Madison's Transportation, Traffic & Parking Departments, Madison Metro, as well as City and UW Police, have been coordinating transportation for the Kohl Center. Beginning with the 2002-2003 season, the TMP group will begin evaluating transportation issues for Camp Randall stadium events also. The annual work plan of this group will be made available to the parties for discussion and evaluation.
- c) Neighborhood Plans: The participating neighborhood associations, and others in the area, are in various stages of preparing planning documents with the support and guidance of the City of Madison. These documents will be incorporated into the MOU as they become available, and will provide valuable information about the neighborhoods' visions, goals and opportunities.
- d) January 8, 2002 Letter: This letter, from the City of Madison to the UW, sets forth the Plan Commission's conditions of approval for the stadium renovation, and includes the requirement to develop this MOU.
- e) Operating Plan Issues: Each year a list of stadium operating plan issues will be developed by UW staff after the January meeting and reviewed with neighborhood representatives at the May meeting.
- f) Contact List: Each year a list of current contact information, including the names and telephone numbers of representatives for each of the parties, will be made available at the May meeting.
- g) Other relevant documents or agreements as needed.

Goals of MOU: The parties to this agreement wish to clarify the issues, concerns and responsibilities, which contribute to successful events, and set guidelines for event operations at Camp Randall Stadium. The MOU is also intended to provide a process for regularly reviewing stadium operations, soliciting input from the community, and making changes as needed to address the goals set by the parties.

- Neighborhoods are treated with respect. Fans are reminded of their responsibilities to the surrounding community; city ordinances governing noise, light, and hours of operation are enforced.
- An attractive physical boundary between UW and its surrounding neighborhoods is preserved. Street design and permitted uses around the stadium help to clarify the boundary between UW activities and the surrounding residential areas.
- Police patrols in the affected residential areas are intended to protect the public and neighborhood residents from violations of law. Currently, the parties agree to an average of twenty hours on regular event days (e.g. football games, Drum Corps Intl, stadium concerts). This amount may be adjusted by agreement of all parties to this MOU based on actual experience. While the timing of these patrols may vary due to the circumstances of a particular event, at least two pairs of officers will be visible and available to residents of the neighborhoods surrounding the stadium. The UW Athletic Department will fund the police patrols covered by this agreement, unless the City agrees to help finance the enforcement.
- Breese Terrace is an important boundary for both the university and the neighborhood, and significant design efforts have been made to make it function well from both points of view. On non-event days, the residents expect Breese Terrace to function as a neighborhood street, with no evidence of commercial activity. On event days, this public street functions as a pedestrian mall pursuant to a street use permit obtained annually from the City of Madison. Vending is limited to an enclosed area, available only to ticket-holders on UW Badger football event days. UW will not regularly park commercial vehicles on Breese Terrace. Details of vehicle use of Breese Terrace on event days, and in preparation for events, will be discussed at the annual pre-season planning meeting and at every pre-event meeting throughout the season.

Residents will be encouraged to provide comments on security measures that affect their daily lives.

- Neighborhoods return to normal as soon after events as possible, for example, clean-up is completed, event lighting is extinguished, commercial vehicles are gone, and noisy activities cease.
- Home football games and special events are scheduled and conducted efficiently providing a safe, entertaining environment for customers and staff.

Scope of MOU: This Memorandum of Understanding is intended to address Camp Randall Stadium events and their impact upon the four adjacent neighborhoods during construction (which is scheduled to begin in the Spring of 2003), and after the renovation of the stadium is completed (by the Fall of 2005).

1. General Issues: Health, safety and enjoyment of people who are attending events at the stadium and those who live in the surrounding neighborhoods.
2. Parties Agree To: Meet at least twice a year (at pre- and post-season meetings) to discuss stadium operations and how to improve them. Attend meetings of the Stadium Operations Committee during the football season to provide input. Communicate with their constituents about issues discussed in these meetings. Seek consensus on issues that require compromise and negotiation.
3. Issues Covered: Commercial activity, vehicular traffic, parking, bike and pedestrian circulation, lighting, amplified sound, litter, fan education, and any other issues the parties determine are relevant to the stated purposes of this agreement. Of particular importance is the provision of additional post-game police patrols, funding to be negotiated by the UW and the Madison Police Department.
4. Issues Not Covered
 - a. External Security: The Stadium Operations Committee manages “perimeter security” for those people entering the stadium. UW Police will develop security procedures for areas surrounding the stadium, and will encourage comments from the affected neighbors.
 - b. City Ordinances: The UW acknowledges that city ordinances apply to its operations, but has no jurisdiction to enforce city ordinances on non-university property.
 - c. Private Business Establishments: The UW has no jurisdiction over the activities that occur at business establishments on private property; this jurisdiction lies with the City of Madison’s police and regulatory bodies.

Implementation Process

1. Initial Phases

Stadium operation plans will change during the two to three year renovation process. The current schedule anticipates beginning construction in the spring of 2003 and continuing during the 2003 and 2004 football seasons. Construction will initially be concentrated on the east and south sides of the stadium, but the west side will be renovated in the later stages of the project. The Hoyt Street traffic islands may be installed after the west concourse work is completed.

The 2005 football season is projected to be the first season in the renovated stadium. All new concession and rest room facilities will open by the 2005 season. Beginning in the 2003 season, the TV trucks will be moved from Breese Terrace to Lot 19.

2. Planning Responsibilities

University staff is responsible for drafting operations plans, event profiles, scheduling meetings and keeping records. Neighborhood associations are responsible for selecting representatives, reviewing operations plans, communicating to members, and collecting information for input and discussion.

Operations plans may be modified using a consensus building process.

3. Calendar of Meetings Beginning in 2003

January Post-Season Evaluation: This meeting will collect feedback about the season just ended. It will be attended by members of the Stadium Operations Committee, the Transportation Management and Planning group, and representatives of all four neighborhood associations.

May Pre-Season Planning: This meeting will highlight new or changed procedures for the upcoming season. It will be attended by members of the Stadium Operations Committee, the Transportation Management and Planning group, and representatives of all four neighborhood associations.

Post-Game Meetings: On the Tuesdays following every home game, a meeting will be held to review specific activities, staff assignments and adjust operations based on feedback from the previous game. It will be attended by members of the Stadium Operations Committee, and a neighborhood representative or alternate.

Special Meetings: The Assistant Athletic Director for Event Management may call special meetings on request of any committee member.

Oversight Responsibility

City issues and oversight can be reviewed by the Plan Commission, which approved the zoning conditional use for the stadium project. The UW administrative structure provides oversight of all University operations.

Amendments

This agreement may not be amended except upon written approval of all parties.
