April 1, 2015

This letter is to indicate Metro Transit's support for the addition of sidewalks as part of the Turner Avenue reconstruction project. This is an important street from a transit perspective.

Neighborhoods with sidewalks provide better access to transit service for residents who are elderly or disabled. This is consistent with the accessibility goals of the Americans with Disabilities Act (ADA). Sidewalks also make walking safer for able-bodied individuals, including school-aged children who are using transit for school trips.

Metro Transit supports improvements that enhance pedestrian access and safety.

Drew Beck  
Transit Planning and Scheduling Manager
