Hi Jodi-

I wanted to make sure you also received this information as we are required by the city. Thank you

Hi All, hope you've enjoyed your summer.

I am writing to let you know we would like to apply for a land use application for the building across the street from Funk Factory (I believe address is 1529 Gilson) it is the building currently under renovation by our landlord next to the blue house.

We are at capacity for storage and production space and would like to rent the space across the street to help alleviate this problem. This space will not be additional taproom or open to public space. It would be warehouse and production space (same use as current location production rooms)

The use of the space will require a conditional use permit from the city and this will go more smoothly if the neighborhood is in support. I writing to see if you would be able to discuss with association/neighbors and let us know if this is something that would be supported. I happy to attend a meeting with neighbors if this would be best.

Thanks in advance,

Amanda Funk
