Dear Park Board Commissioners,

My name is Candace Diaz, and I'm writing to voice my strong support for the ongoing project at the Roth Street site, led by Madison resident Beth Sluys. I have been actively involved alongside Beth and other dedicated volunteers in clearing and caring for this area through the winter and early spring.

We respectfully urge you to grant permission for Ritchie Brown to conduct ground-penetrating radar (GPR) at the site. This non-invasive method is a critical step in confirming and protecting what is believed to be an Indigenous mound.

Recognizing and preserving Indigenous history is a vital part of honoring the cultural foundations of this land and community. This work is both timely and deeply meaningful.

Thank you for your consideration.

Sincerely,

Candace Diaz

Hi CJ,

Here is a brief power point for tonight's presentation. I will also bring on USB drive Just in case.

Thanks

Beth
