What impact do you anticipate your event will have on the residents/businesses in the areas surrounding the park? Consider things such as noise, parking, traffic, etc. What plans do you have to minimize these impacts?

We schedule all events, sound checks, etc. to occur outside of code-mandated quiet hours, and within similarly mandated decibel levels for our host venue’s neighborhood. The generator we hire is designed for movie sets, and runs inaudibly outside of the van that contains it. Traffic may increase on Sherman Ave. and Northport Dr. to enter the park between 9:00am – 10:00am, and again to exit the park between 11:30am – 12:30pm; we plan to mitigate this with ample wayfinding signage, promoting taking public transportation or bicycling to the event, and even hiring lot attendants for direction as need be. If anything, this event will be a boon to local businesses, as many families have lunch or run errands at local shops following our event in the past.

Provide Detailed Event Site Map (feel free to provide this map as a separate attachment):

Space for up to 35 community partner stations, one drum circle, 8’ x 16’ x 8” stage, two 20-ton trucks. Prefer adjacent to shelter for use of concrete pad/apron areas for trucks.
