Re: YMCA 711 Cottage Grove Rd. – New Wall Signs

Dear Member of the Commission:

Please accept this submittal as our request for your review of the new signs proposed for the above referenced location.

This business is a 'Nonresidential Building' in a residential zoning district – R1/R4. It fronts Cottage Grove Rd., and faces various businesses across the street. The main entrance faces Clare St. Half of the building on this side faces residents, and the other half faces a vacant lot.

The sign ordinance restricts signs in this district to 6 sq' of non-illuminated signs, and because the building has frontage on two streets, it is allowed two displays. This per section 31.14(2)(b)1.c.

We are asking for a variance to this regulation so that this busy location can be properly identified.

North Elevation

The building has a deep setback from Cottage Grove Rd. The length of the façade the sign is proposed to go on is 104'. A 6 sq' non-lit sign could not be read from the street. We are asking for an internally illuminated sign that would be in proportion to this 1020.64 sq' of signable area. The proposed sign is 102 sq'. Please see drawing 53902 sheet 1. If this were a commercial zone, the chart in the ordinance would allow a 568.25 sq' sign – 40% of the signable area.

West Elevation

Here we are asking for an 18.64 sq' internally illuminated logo to identify the entrance to this business. Please see drawing 53902 sheet 2. This signable area = 225 12 sq'. If this was a zoning district found on the chart, allowing 40%, a 90. 2 sq' sign would be allowed. Like the North elevation, a 6 sq' non-lit display would not be able to be seen from the street at night.

Method of Illumination

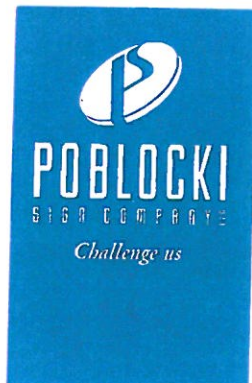

Logo Boxes - These are both designed to have only the copy/logo light at night, except for the smaller 'YMCA' – these letters would not light at all. The internally illuminated portions would be face lit, mounted onto opaque aluminum backgrounds.

Letters – 'Lussier Family East' – These letters proposed to face Cottage Grove Rd. would appear dark during the day and light up at night. They would be mounted to raceways painted to match the color of the wall.

All illuminated would be internal led lighting and therefore low voltage for energy savings.

The existing building signs would be removed and replaced with the new signs.

We believe this proposal would be in keeping with the intent of the ordinance to safely direct members to this business and properly identify the entrance.

Re: **YMCA East – 711 Cottage Grove Rd. – Comprehensive Design Review Criteria - New Signs**

Dear Members of the UDC:

We understand that we must address the seven items listed in Madison's Sign Control Ordinance, Chapter 31.043(4)(b) Comprehensive Design Review Criteria. Please accept this as a supplemental document to support our request.

#1 – Replacing the existing signs would enhance the visual harmony of this existing building. The two logo boxes – one facing south, and one facing west – would bring both elevations together as one establishment.

#2 – States 'Each element of the Sign Plan shall be found to be necessary due to unique or unusual design aspects in the architecture or limitations in the building site'. It is important to the Y to include the 'Lussier Family' name in this new display as has been previously approved for their West branch.

#3 – This new sign plan would enhance the aesthetics of this location, and if allowed, will help eliminate safety issues by clearly identifying the building from both Cottage Grove Rd., and Clare St.

#4 – All signs shall be constructed according to the City of Madison Sign Control Ordinance, 'Construction Requirements', as listed in section 31.04(5) in regard to material, structure, electrical requirements, wind loads and supports. The new, internally illuminated signs will have UL labels.

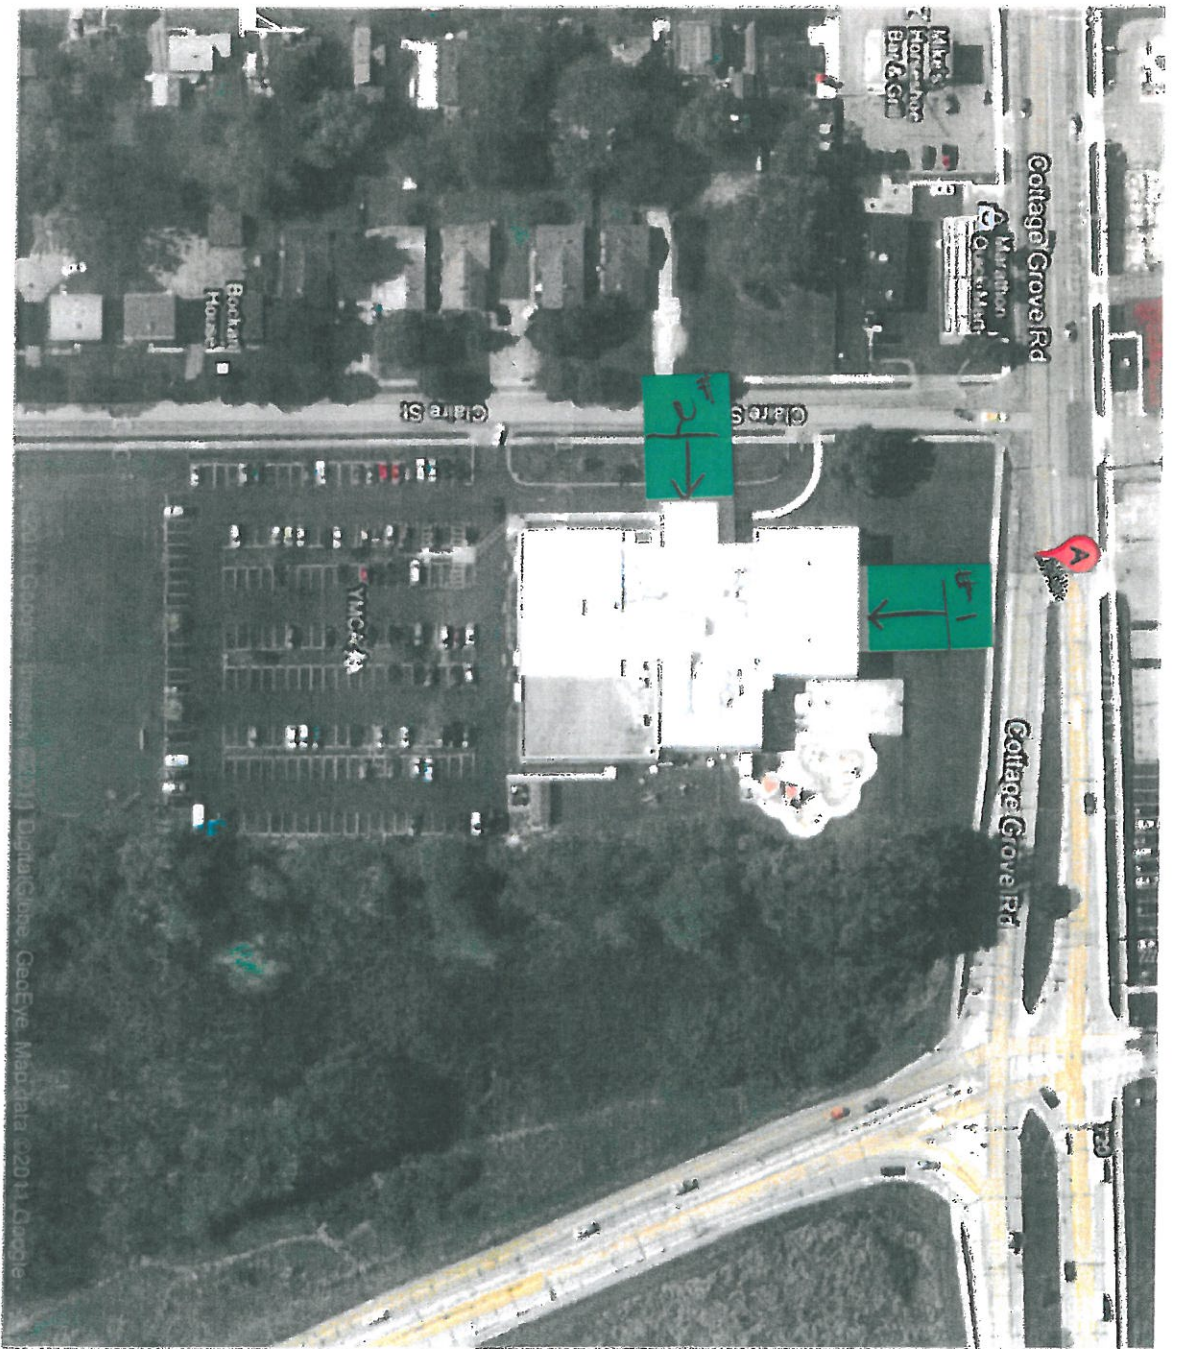

#5 – Regarding 'Advertising Signs' - all of the proposed signs are on-premise signs.

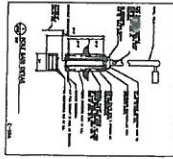

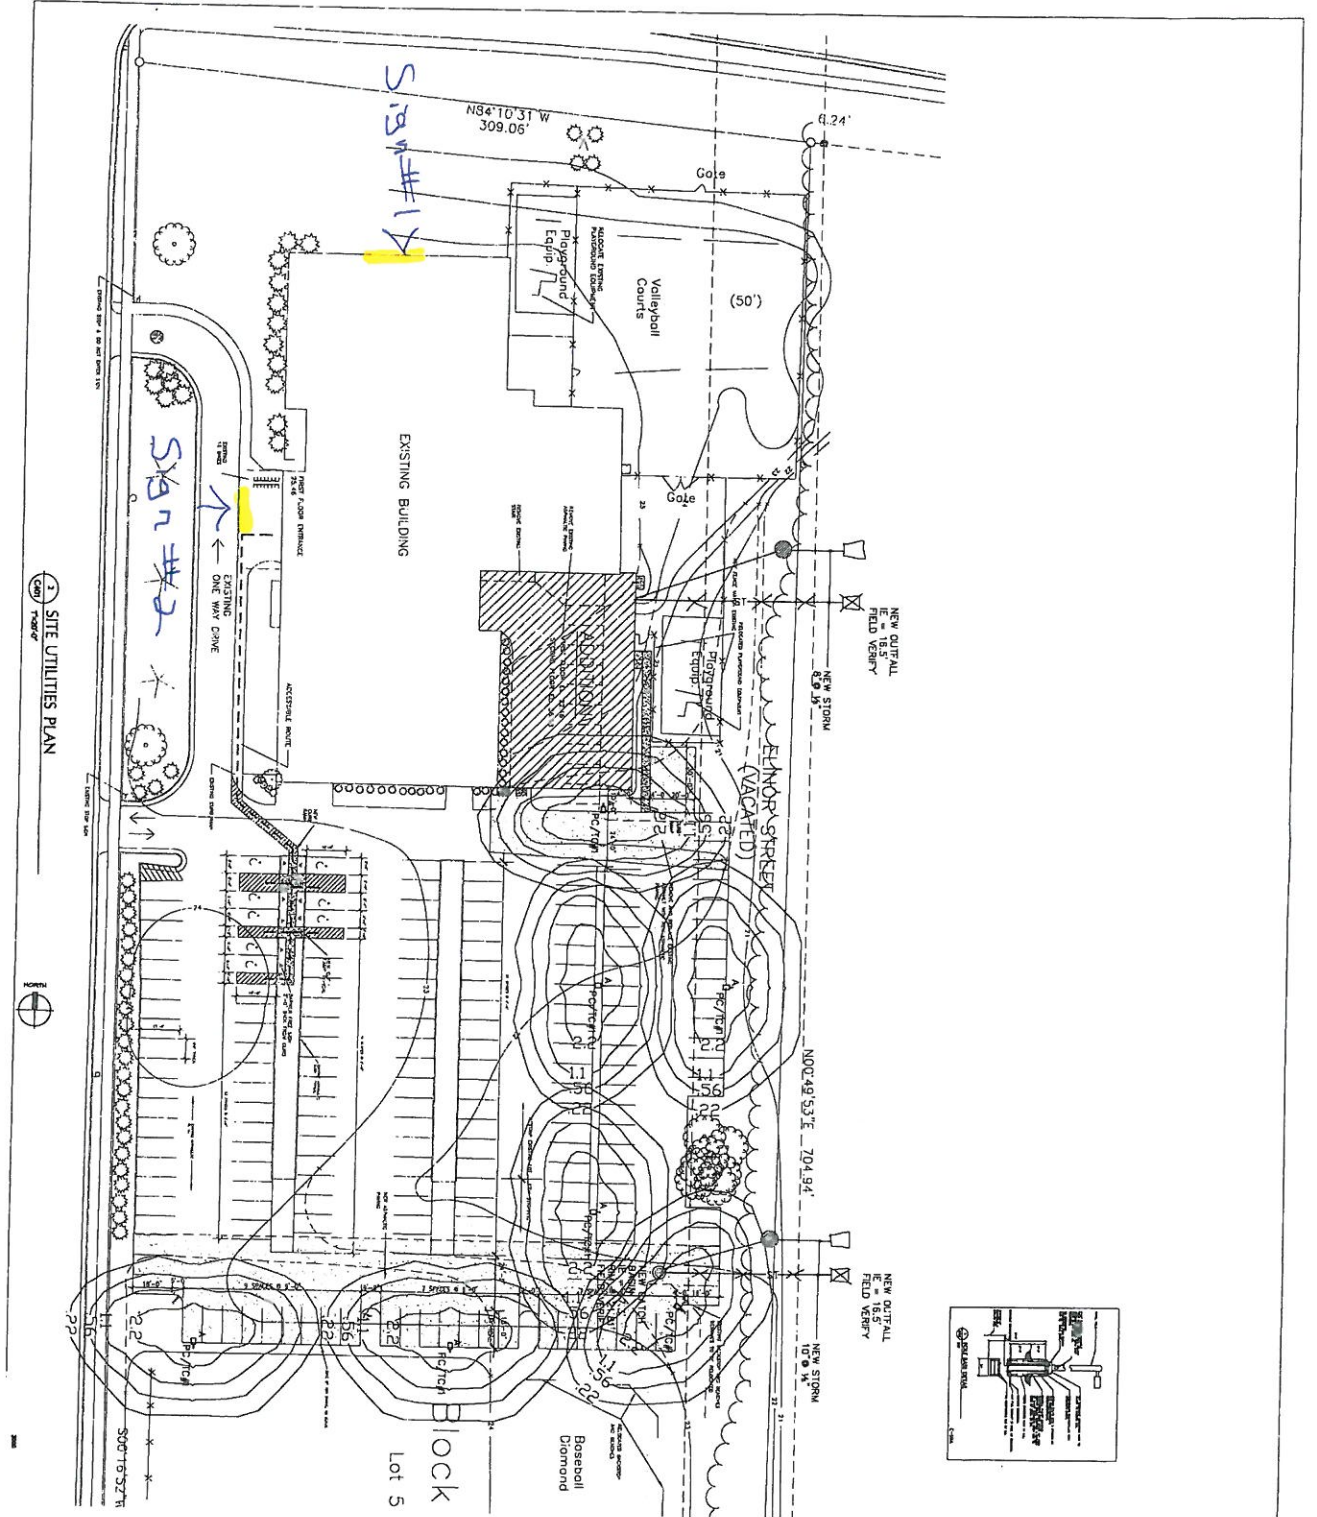

#6 – This item appears to be directed to free standing signs – concerning obstructions and visibility – our proposal does not include any free standing signs. All signs are proposed to be on the building.

#7 – These signs are on-premise, building signs, as stated above, and therefore entirely on private property.

Thank you for your consideration.

Deb Burton,
Poblocki Signs
