Subject: 1902 Monroe St, 712 Harrison St

To the Plan Commission:

We had a neighborhood meeting about the proposed development at 1902 Monroe St, 712 Harrison St. There was broad support for the proposal. The consensus was that it would be much better than the existing blue house.

The only caveat was no parking permits for new residents. I understand that this is one of the conditions of approval.

I support this proposal.

Thank you.

Sue
