URBAN DESIGN COMMISSION APPROVAL PROCESS

Introduction

The City of Madison's Urban Design Commission (UDC) has been created to:

- Encourage and promote high quality in the design of new buildings, developments, remodeling, and additions so as to maintain and improve the established standards of property values within the City.
- Foster civic pride in the beauty and nobler assets of the City, and in all other ways possible assure a functionally efficient and visually attractive City in the future.

Types of Approvals

There are three types of requests considered by the UDC:

- Informational Presentation. A request for an Informational Presentation to the UDC may be requested prior to seeking any approvals to obtain early feedback and direction before undertaking detailed design efforts. Applicants should provide details on the context of the site, design concept, site and building plans, and other relevant information to help the UDC understand the proposal and provide feedback. (Does not apply to CDR's or Signage Modification requests)
- Initial Approval. Applicants may, at their discretion, request Initial Approval of a proposal by presenting preliminary design information. As part of their review, the Commission will provide feedback on the design information that should be addressed at Final Approval stage.
- Final Approval. Applicants may request Final Approval of a proposal by presenting all final project details. Recommendations or concerns expressed by the UDC in the Initial Approval must be addressed at this time.

Presentations to the Commission

The Urban Design Commission meets virtually via Zoom, typically on the second and fourth Wednesdays of each month at 4:30 p.m. Applicant presentations are strongly encouraged, although not required. Prior to the meeting, each individual speaker is required to complete an online registration form to speak at the meeting. A link to complete the online registration will be provided by staff prior to the meeting. Please note that individual presentations will be limited to a **maximum of three (3) minutes**. The pooling of time may be utilized to provide one speaker more time to present, however the additional time will be based on the number of registrants from the applicant team, i.e. two (2) applicant registrants = six (6) minutes for one (1) speaker.

Primarily, the UDC is interested in the appearance and design quality of projects. Emphasis should be given to the site plan, landscape plan, lighting plan, building elevations, exterior building materials, color scheme, and graphics. Please note that presentation slides, in a PDF file format, are required to be submitted **the Friday before** the UDC meeting.

Re: Letter of Intent to Modify Existing Planned Development (PD 312) for the former bank property at 4702 Verona Road, Madison, WI

To: Planning Division:

Please be advised that I am writing on behalf of 2018DT South Beloit, L.L.C., the owner of the commercial property commonly known as 4702 Verona Road, Madison, Wisconsin. The property was formerly operated as a BMO Harris Bank Branch and was developed as an approved Planned Development limiting the use of the property to bank use only.

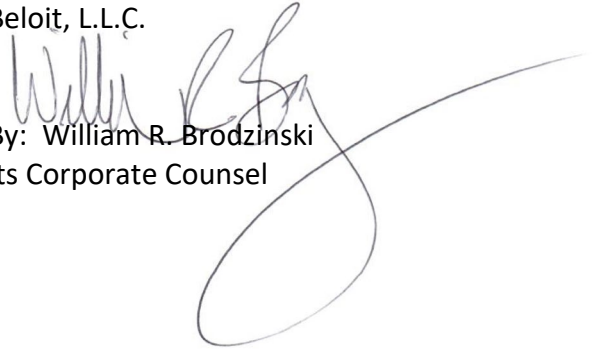

The owner seeks to amend the existing Planned Development applicable to the property, to expand the permitted use to include the operation of a coffee shop by a national coffee chain, using the existing 3,920 square foot building and existing site with limited modification, and for other corresponding commercial and retail uses. The coffee shop location will have indoor seating and a drive through, using the existing building on site, along with preserving the existing landscaping. Based on the recommendations of staff engineering, the access to the property on Verona Road will be relocated, to allow for increased queuing for the drive-through as indicated on the site plan being submitted as part of the application.

The intent is to preserve as much of the existing trees and landscape as possible and to enhance the exterior of the building. The interior of the building will be modified to convert the bank teller line and office for a service counter, indoor seating for patrons and meeting rooms for training. The number of employees and store hours will be consistent with other similar locations in the area. The traditional bank drive-through canopy will be removed in favor of a customary drive-up window. The current site plan accounts for 18 on-site parking spaces and a bike rack.

If you have any questions, you can contact the undersigned at this e-mail address or at the phone number listed below.

Very Truly Yours
First Midwest Group for 2018DT South
