1. School bus stop for kids.
2. Visibility (trees/blind spot).
3. Traffic speeds and cuts short around corners.
4. Volume of traffic exceeds most neighborhood traffic due to commercial locations nearby, also city dump and East Washington Ave. construction at present.
5. Blind person is a resident living in this area.
6. Desired by neighborhood residents.

These are our concerns. What do you propose to solve these problems?

*To provide TW a copy of my
letter to TW (let me re-read it)
and we can chart the course.*
