Financial Officer
Steven B. Danner-Rivers

RESIDENTIAL DRIVEWAY OPENING REQUEST

The street which abuts your property is scheduled for reconstruction. Drive aprons will be removed and replaced. Abutting the sidewalk, the new drive apron will be constructed to the width of the driveway behind the property line. All new drive aprons will usually be flared 2 feet on each side at the curb opening. If you desire a change in the driveway location or dimensions, it is necessary that you complete the diagram below, sign, and return this form within two (2) weeks to the City Engineering Division, Room 115, City-County Building, Madison, Wisconsin, 53703.

This diagram is not to any scale. Please provide:

1. The width of the driveway;
2. The distances from the edge of the driveway to the property lines;
3. The width of the desired curb opening

Residential curb openings are usually equal to the width of the driveway behind the property line at the sidewalk and an additional four (4) feet at the curb. The additional width at the curb opening is provided to facilitate turns into the driveway from the street. The City Ordinances allow up to a 20-foot wide apron at the sidewalk if necessary and requested by the property owner. In the case of vacant lots, no driveway opening will be made unless this form is returned to the City Engineering Division with the necessary information.

Any concrete walks within the terrace area will be removed and will be replaced with topsoil and be seeded. If you wish to have the terrace walk replaced, please contact the Project Engineer before construction begins.

If the requested drive apron is larger than what has been estimated on the attached schedule of assessments, I hereby request that City of Madison to include this additional cost in my assessment for the Street Improvement.

Street Address 1157 Sherman Ave
