## Introduction

The City of Madison's Urban Design Commission (UDC) has been created to:

- Encourage and promote high quality in the design of new buildings, developments, remodeling, and additions so as to maintain and improve the established standards of property values within the City.
- Foster civic pride in the beauty and nobler assets of the City, and in all other ways possible assure a functionally efficient and visually attractive City in the future.

## Types of Approvals

There are three types of requests considered by the UDC:

- **Informational Presentation.** Applicants may, at their discretion, request to make an Informational Presentation to the UDC prior to seeking any approvals to obtain early feedback and direction before undertaking detailed design. Applicants should provide details on the context of the site, design concept, site and building plans, and other relevant information to help the UDC understand the proposal and provide feedback. (Does not apply to CDR's or Signage Variance requests)
- **Initial Approval.** Applicants may, at their discretion, request initial approval of a proposal by presenting preliminary design information. As part of their review, the Commission will provide feedback on the design information that should be addressed at Final Approval stage.
- **Final Approval.** Applicants may request Final Approval of a proposal by presenting all final project details. Recommendations or concerns expressed by the UDC in the initial approval must be addressed at this time.

## Presentations to the Commission

Primarily, the UDC is interested in the appearance and design quality of projects. Emphasis should be given to the site plan, landscape plan, lighting plan, building elevations, exterior building materials, color scheme, and graphics.

When presenting projects to the UDC, applicants must fill out a registration slip provided in the meeting room and present it to the Secretary. Presentations should generally be limited to 5 minutes or as extended by motion by consent of the Commission. The Commission will withhold questions until the end of the presentation.

Applicants are encouraged to consider the use of various graphic presentation material including a locator map, photographs, renderings/model, scale drawings of the proposal in context with adjacent buildings/uses/signs, etc., as may be deemed appropriate to describe the project and its surroundings. Graphics should be mounted on rigid boards so that they may be easily displayed. **Applicants/presenters are responsible for all presentation materials, AV equipment and easels.**

Dear Ms. Cleveland:

Mortenson Development, Inc. is pleased to submit this Urban Design Committee Application for an Informational Meeting for a proposed, nationally recognized, full-service hotel located at 760 Regent Street. This new hotel is intended to increase density on an underdeveloped parcel and provide an activated use at an important gateway to the campus while providing unparalleled accommodations for guest to Madison and the University of Wisconsin. The hotel features an entrance lobby, bar & restaurant, and supporting back of house function on the first floor; fitness, meeting space, and a covered balcony on the second floor; and approximately 176 guestrooms on 4 levels above. A parking structure is embedded underneath part of the hotel tower and contains approximately 235 parking spaces which replace and supply additional capacity to the existing surface spaces. The building's architecture takes a fresh take on the prototypical hotel language of the brand to integrate it was a non-typical massing strategy. The building is anchored by its masonry clad stair towers and features a mix of materials and detailing to accentuate the buildings features and program. The building supports connections to the East Campus Mall, bike trail, and the greater neighborhood through the use of landscaping and pedestrian connections.

Sincerely,

KAHLER SLATER, INC.
