Re: Breese Stevens Fan Access Plan and Neighborhood Impact Plan

Eric,

Vern Stenman appeared before the TLNA Council on December 14, 2017, seeking support changes to the Fan Access Plan and the Neighborhood Impact Plan. Concerns were expressed about the level of support for bicycle parking. Vern agreed to investigate ways to expand bicycle parking and strengthen their commitment to bicycle parking in the Fan Access Plan. The TLNA Council voted to support the two plans, with the agreement that Vern would further amend the Fan Access Plan.

He did follow up with an additional meeting with me and Jonny Hunter, TLNA Transportation/Safety chair, and shortly after sent an updated Fan Access Plan, attached.

We appreciate the changes and look forward to seeing more support for bicycle parking in 2018.

With best regards,
