RE: Legistar #56130; Accela ID: 'LNDUSE-2019-00057' -- Approval of a Conditional Use to establish a restaurant-tavern with an outdoor eating area in an existing multi-tenant commercial building on a property zoned SE (Suburban Employment) at 7066 Sligo Drive.

Dear Mr. Akogyeram:

At its July 8, 2019 meeting, the Plan Commission, meeting in regular session, found the standards met and approved your conditional use requests to establish a restaurant-tavern and outdoor eating area in an existing multi-tenant commercial building at **7066 Sligo Drive**, subject to the conditions below. In order to receive final approval of the conditional use, and for any permits to be issued for your project, the following conditions shall be met:

Please contact Tim Troester of the Engineering Division at (608) 261-1995 if you have any questions regarding the following eight (8) items:

1. This site appears to have a land use that will result in their inclusion as a restaurant class sanitary sewer customer. This will charge commercial kitchen facilities a higher sanitary sewer fee per gallon than domestic users and is based on strengths of waste measured at representative similar customers throughout the City. If the applicant desires, a sampling manhole may be installed, as part of the initial construction at their cost, to allow site specific sampling of their waste to determine sanitary sewer charges specifically for this site. If no sampling manhole is installed, this site will default to the restaurant class code in Chapter 35 recently adopted by the Common Council. If you have questions on the restaurant class sewer charges please contact Megan Eberhardt at 608-266-6432.
2. The site plan shall be revised to show all existing public sanitary sewer facilities in the project area as well as the size, invert elevation, and alignment of the proposed service. (POLICY)
3. The Applicant shall submit, prior to plan sign-off but after all revisions have been completed, a digital CAD file (single file) to the Engineering Division with any private storm and sanitary sewer utilities. The digital CAD file shall be to scale and represent final construction. The CAD file shall be in a designated coordinate system (preferably Dane County WISCRS, US Ft). The single CAD file submittal can be either AutoCAD (dwg) Version 2013 or older, MicroStation (dgn) V8i Select Series 3 or older, or Universal (dxf) format and shall contain the only the following data, each on a separate layer

name/level number:

- a. Building Footprints
- b. Internal Walkway Areas
- c. Internal Site Parking Areas
- d. Other Miscellaneous Impervious Areas (i.e. gravel, crushed stone, bituminous/asphalt, concrete, etc.)
- e. Right-of-Way lines (public and private)
- f. Lot lines or parcel lines if unplatted
- g. Lot numbers or the words unplatted
- h. Lot/Plat dimensions
- i. Street names
- j. Private on-site sanitary sewer utilities (including all connections to public sanitary)
- k. Private on-site storm sewer utilities (including all connections to public storm)

All other levels (contours, elevations, etc) are not to be included with this file submittal.

NOTE: Email CAD file transmissions are preferred to: bstanley@cityofmadison.com (East) or ttroester@cityofmadison.com (West). Include the site address in the subject line of this transmittal. Any changes or additions to the location of the building, sidewalks, parking/pavement, private on-site sanitary sewer utilities, or private on-site storm sewer utilities during construction will require a new CAD file.

4. The applicant shall submit, prior to plan sign-off but after all revisions have been completed, digital PDF files to the Engineering Division. Email PDF file transmissions are preferred to: bstanley@cityofmadison.com (East) or ttroester@cityofmadison.com (West). The digital copies shall be to scale, and shall have a scale bar on the plan set. (POLICY and MGO 37.09(2))PDF submittals shall contain the following information:
 - a. Building Footprints
 - b. Internal Walkway Areas
 - c. Internal Site Parking Areas
 - d. Other Miscellaneous Impervious Areas (i.e. gravel, crushed stone, bituminous/asphalt, concrete, etc.)
 - e. Right-of-Way lines (public and private)
 - f. Lot lines or parcel lines if unplatted
 - g. Lot numbers or the words unplatted
 - h. Lot/Plat dimensions
 - i. Street names
 - j. Stormwater Management Facilities
 - k. Detail drawings associated with Stormwater Management Facilities (including if applicable planting plans).
5. Submit a draft Stormwater Management Maintenance Agreement (SWMA) for review and approval that covers inspection and maintenance requirements for any BMP used to meet stormwater management requirements on this project. Include copies of all stormwater, utility, and detail plan sheets that contain stormwater practices on 8.5x14 size paper in the draft document. These drawings do not need to be to scale as they are for informational purposes only. Once City Engineering staff have reviewed the draft document and approved it with any required revisions submit a signed and notarized original copy to City Engineering. Include a check for \$30.00 made out to Dane County

Register of Deeds for the recording fee. City Engineering will forward the document and fee for recording at the time of issuance of the stormwater management permit. Draft document can be emailed to Tim Troester (west) at ttroester@cityofmadison.com, or Daniel Olivares at DAOlivares@cityofmadison.com final document and fee should be submitted to City.

6. The applicant shall demonstrate compliance with Section 37.07 and 37.08 of the Madison General Ordinances regarding permissible soil loss rates. The erosion control plan shall include Universal Soil Loss Equation (USLE) computations for the construction period. Measures shall be implemented in order to maintain a soil loss rate below 5.0 tons per acre per year.
7. Prior to approval, this project shall comply with Chapter 37 of the Madison General Ordinances regarding stormwater management. Specifically, this development is required to Reduce TSS by 80% off of the proposed development when compared with the existing site.
8. Oil and Grease Control is required for this site.

Please contact Jeffery Quamme of the Engineering Division – Mapping Section at (608) 266-4097 if you have any questions regarding the following two (2) items:

9. There is new storm sewer proposed to connect to the private storm sewer within the private access drive area west of this site. The maintenance and repair Agreement for the private drive per Doc No 2080229 requires written consent by the parties of the Agreement for any additional use of the easement area. Provide a copy of the consent prior to final site plan sign off.
10. The address of the tenant location is 7066 Sligo Dr. Update all sheets accordingly. The site plan shall reflect a proper street address of the property as reflected by official City of Madison Assessor's and Engineering Division records.

Please contact Sean Malloy of the Traffic Engineering Division at (608) 266-5987 if you have any questions regarding the following twelve (12) items:

11. The applicant shall submit one contiguous plan showing proposed conditions and one contiguous plan showing existing conditions for approval. The plan drawings shall be scaled to 1" = 20' and include the following, when applicable: existing and proposed property lines; parcel addresses; all easements; pavement markings; signing; building placement; items in the terrace such as signs, street light poles, hydrants; surface types such as asphalt, concrete, grass, sidewalk; driveway approaches, including those adjacent to and across street from the project lot location; parking stall dimensions, including two (2) feet of vehicle overhang; drive aisle dimensions; semitrailer movement and vehicle routes; dimensions of radii; and percent of slope.
12. The Developer shall post a security deposit prior to the start of development. In the event that modifications need to be made to any City owned and/or maintained traffic signals, street lighting, signing, pavement marking and conduit/handholes, the Developer shall reimburse the City for all associated costs including engineering, labor and materials for both temporary and permanent installations.
13. The City Traffic Engineer may require public signing and marking related to the development; the

Developer shall be financially responsible for such signing and marking.

14. All parking facility design shall conform to MGO standards, as set in section 10.08(6).
15. All bicycle parking adjacent pedestrian walkways shall have a 2 foot buffer zone to accommodate irregularly parked bicycles and/or bicycle trailers.
16. All pedestrian walkways adjacent parking stalls shall be 7 feet wide to accommodate vehicle overhang, signage and impediments to walkway movements. Any request for variance shall be submitted to and reviewed by City Traffic Engineering.
17. The applicant shall adhere to all vision triangle requirements as set in MGO 27.05 (No visual obstructions between the heights of 30 inches and 10 feet at a distance of 25 feet behind the property line at streets and 10 feet at driveways.). Alteration necessary to achieve compliance may include but are not limited to; substitution to transparent materials, removing sections of the structure and modifying or removing landscaping elements. If applicant believes public safety can be maintained they shall apply for a reduction of MGO 27.05(2)(bb) - Vision Clearance Triangles at Intersections Corners. Approval or denial of the reduction shall be the determination of the City Traffic Engineer.
18. The applicant shall provide a clearly defined 5' walkway clear of all obstructions to assist citizens with disabilities, especially those who use a wheel chair or are visually impaired. Obstructions include but are not limited to tree grates, planters, benches, parked vehicle overhang, signage and doors that swing outward into walkway.
19. "Stop" signs shall be installed at a height of seven (7) feet at all class III driveway approaches, including existing driveways, behind the property line and noted on the plan. All directional/regulatory signage and pavement markings on the site shall be shown and noted on the plan.
20. One way operation of the site shall be secured by placing a "One Way" sign at the entrance and a "Do Not Enter" sign at the Exit.
21. Applicant shall submit for review a vehicular turning movement template demonstrating the use of the order board and pick-up window.
22. All vehicle service window access aisles shall have a minimum outside turning radius of thirty (30) feet.

Please contact Jacob Moskowitz, the Assistant Zoning Administrator at (608) 266-4560 if you have any questions regarding the following three (3) items:

23. Signage approvals are not granted by the Plan Commission. Signage must be reviewed for compliance with Chapter 31 Sign Codes of the Madison General Ordinances and Chapter 33 Urban Design District ordinances. Signage permits are issued by the Zoning Section of the Department of Planning and Community and Economic Development.
24. Submit a detail of the trash enclosure. The trash enclosure shall be screened on four (4) sides (including a gate for access) by a solid, commercial-grade wood fence, wall, or equivalent material with a minimum height of six (6) feet and not greater than eight (8) feet.

25. Submit the landscape plan and landscape worksheet stamped by the registered landscape architect. Per Section 28.142(3) Landscape Plan and Design Standards, landscape plans for zoning lots greater than ten thousand (10,000) square feet in size must be prepared by a registered landscape architect.

Please contact Bill Sullivan of the Fire Department at (608) 261-9658 if you have any questions regarding the following item:

26. Provide a fire sprinkler system within the area of work with the overall increase of occupants to the building. The sprinkler system should be of sufficient capacity to be extended to the rest of the building during future Level II alterations, changes of use, or occupant load increases.

Please contact Adam Wiederhoeft at (608) 266-9121 if you have any questions regarding the following item:

27. A Water Meter Application Form and fees must be submitted before connecting to the existing water lateral. Provide at least two working days notice between the application submittal and the scheduled lateral connection/extension. Application materials are available on the Water Utility's Plumbers & Contractors website (<http://www.cityofmadison.com/water/plumberscontractors>), otherwise they may be obtained from the Water Utility Main Office at 119 E Olin Ave. A licensed plumber signature is required on all water service applications. For new or replacement services, the property owner or authorized agent is also required to sign the application. If you have questions regarding water service applications, please contact Madison Water Utility at (608) 266-4646.

Please contact my office at (608) 261-9135 if you have any questions regarding the following two (2) items:

28. The applicant shall submit detail regarding the design or materials of the outdoor eating area fence for review by Zoning and Planning Staff before final sign off.
29. Approval from the Alcohol License Review Committee (ALRC) for the proposed restaurant is required before alcohol may be sold by the establishment at this site.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining your conditional use:

1. Please revise your plans per the above conditions and submit **eight (8) copies** of a complete, fully dimensioned and scaled plan set to the Zoning Administrator for final review and comment. Also be sure to include any additional materials requested by these departments for their approval prior to sign off. The final site plan shall be accompanied by the appropriate site plan review application and fee pursuant to Section 28.206 of the Zoning Code, and any other documentation requested herein with the Zoning Administrator, 215 Martin Luther King Jr. Boulevard. **This submittal shall all also include one complete digital plan set in PDF format.** The sets of final revised plans or documents will be circulated by the Zoning staff to the City department staff listed above for their final approval.
2. This property is not in a wellhead protection district. All wells located on this property shall be abandoned if no valid well operation permit has been obtained from the Madison Water Utility.

3. This letter shall be signed by the applicant to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting conditional use approval.
4. The approval is valid for one (1) year from the date of the Plan Commission approval. During this time, the applicant must either lawfully commence the use or obtain a building permit and begin erecting the building. If the applicant obtains a valid building permit, construction must commence within six (6) months of the date of issuance. The building permit shall not be renewed unless construction has commenced as is being diligently prosecuted.
5. Any alteration in plans for a proposed alternative use shall require Plan Commission approval, except for minor alterations. The Zoning Administrator may issue permits for minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the City Plan Commission and the conditional use approval standards.
6. The Plan Commission retains continuing jurisdiction over all conditional uses for the purpose of resolving complaints against all previously approved conditional uses.

If you have any questions regarding obtaining your conditional use or building permits, please contact the Zoning Administrator at (608) 266-4551. If you have any questions or if I may be of any further assistance, please do not hesitate to contact my office at (608) 243-0554.

Sincerely,

Chris Wells
Planner
