

Report Requests by CSOS at 3.14.13 Meeting

- 1) Add line to route productivity report showing the ridership per route just for that current month. If necessary for creating space, could remove the “x” column and just have a solid line to indicate which routes are under the noted productivity level. – Requested by Ahna Bizjak
- 2) Report showing number of passengers/need vs. capacity per route or some other report related to capacity – Requested by Ken Golden
- 3) Separate out Routes 81 and 82 on the route productivity report. – Requested by Dar Ward
- 4) A report showing number of passengers or stops passed up due to overcrowding or a report on how many extra buses have to be put out. – Suggested by Steve Arnold
- 5) Report for paratransit ridership by fare category. – Requested by Ken Golden
