Hi-

Thank you for looking at a new solution for this intersection.

Per Alder Field's email, I would also like to advocate for a roundabout at that intersection. I think it will slow traffic there as well as better control the intersection. We also see the stop lights back up on TT at rush hour and would be concerned that it also would happen there.

Another note on Sprecher- it is very difficult to cross at the uncontrolled intersections between Cottage Grove rd and Milwaukee St. Cars travel at high rates of speed (much more than 35mph posted) and it feels like you are playing chicken to cross especially during peak morning and evening hours. If we could reduce the speed limit it may help (even if not addressing habitual offenders).

Thank you again for your study of this area!
