

During a month's long process of public meetings, a traffic study, and meaningful input from the neighborhood, on May 1st the Common Council voted for the option #2 that removes 30% of the parking in a vital and vibrant neighborhood. This will result in the neighborhood being 100% parked in at all times. These residential streets will see a 30% increase in the amount of traffic, coming from outside the neighborhood to access the amenities of Schenck's Corners in search of parking that will be almost non-existent.

Please sign this petition we will take to Mayor Soglin to ask him to veto the Common Counsel's vote for Option #2
