Communications about neighborhood meetings related to development proposals or alcohol license applications are exempt from the 50-Piece Rule and communications regarding them are considered appropriate use of City resources during campaign season per RES-22-00610. • Alder blog posts are exempt per RES-22-00610; references to meetings that are not related to development proposals or alcohol license applications made in alder blogs during this period count as one (1) piece per alder post. • Other communications are exempt from the 50-Piece Rule only when approved by the Common Council Executive

- o Is it directly related to pending City business or legislation?
- o Is the topic extremely time-sensitive? Or can it be held outside of the campaign season?
- o Does use of City resources provide an advantage unavailable to a campaign challenger?
- o Does use of City resources create a perception that the primary benefit is political?
- o Is this event better held as a campaign event independent of the City?
