**Subject:** Grandview Commons

Mr. Martin,

I am writing again to vote against the Veridian proposal to place a large grocery store in Grandview Commons. A store of this size has no reason to locate in a residential community. This store will bring unwanted noise and traffic to our community. I live in the Richmond Hills development across the street and a store of that size just creates more problems for area residents with unwanted traffic and noise. Too many people will be cutting through the neighborhoods to get to this store. We already have a speeding problem on our street and this will make it even worse.

We are the people who have to live here and are supposed to support this store. I do not understand why Copps wants to locate a store of this size in a residential area where they clearly are unwanted! It is way to big!

This was not the plan presented to people when they built in this neighborhood. Veridian needs to stick to the original plan.

Please protect our neighborhoods. Vote this proposal down.

**Please share this with the other Common Council members and the members of the Planning/Zoning commission.**

Thank you,

Carrie Montgomery
