Crosswalk safety by toki Hello, I speak for the concern parents of Toki Middle schoolers since the district has determined they were no longer going to have crossing guards at the middle schools during middle school start and time. I was wondering if there was any way to approach the city about at least installing flashing crosswalk lights at the crossing of Whitney Way west of Toki Middle School. Already at the beginning of the school year I've seen several students try to cross that busy 4 lane divided road and it doesn't seem reasonable to assume that Middle Schoolers will be able to navigate the traffic or the

traffic being attentive as they should be at school start and end hours. Especially when dismissal time in winter will be during the dark part of the day. Please let me know if there's an avenue to get this considered for implementation or other alternatives to ensure safety of our young tweenagers.
