RE: File No. LD 0805 – Certified survey map – 3604 Agriculture Drive (Alexander Li)

Gentlemen:

The three-outlot certified survey of your client's property located at 3604 Agriculture Drive, Section 27, Township 7N, Range 10E, City of Madison, Dane County, Wisconsin, is hereby **conditionally approved**. The site is zoned M1 (Limited Manufacturing District). The conditions of approval from the reviewing agencies to be satisfied before final approval and recording of the CSM are:

**Please contact Janet Dailey, City Engineering, at 261-9688 if you have questions regarding the following nine conditions:**

1. The Township number is incorrectly identified in the legal description headers on each sheet and the legal description contained within Sheet 3.
2. Remapping of the FEMA Flood Plain via a LOMR is required prior to development of the lands.
3. Revise CSM to show limits of delineated wetlands and 75-foot setbacks/buffers.
4. The developer shall add the note: **“The Outlots created by the CSM may not be developed until further subdivided by a survey approved by the City of Madison”**.
5. Arrows shall be added to the certified survey map indicating the direction of drainage for each property line not fronting on a public street. In addition, the certified survey map shall include lot corner elevations, for all lot corners, to the nearest 0.25-foot. The following notes shall be added to the certified survey map:
  - a.) Arrows indicate the direction of surface drainage swale at individual property lines. Said drainage swale shall be graded with the construction of each principal structure and maintained by the lot owner unless modified with the approval of the City Engineer. Elevations given are for property corners at ground level and shall be maintained by the lot owner.
  - b.) All lots within this survey are subject to a public easement for drainage purposes which shall be a minimum of 6-feet in width measured from the property line to the interior of each lot except that the easement shall be 12-feet in width on the perimeter of the certified survey map. Easements shall not be required on property lines shared with green ways or public streets. No structures may be constructed within said easement and no other obstructions to drainage, including landscaping are permitted without the prior written approval of the City Engineer.

Note: In the event of the City of Madison Plan Commission and/or Common Council approve re-division of a previously subdivided property, the underlying public easements for drainage purposes are released and replaced by those required and created by the current approved subdivision.

6. The following note shall be added to the certified survey map. "All lots created by this certified survey map are individually responsible for compliance with Chapter 37 of the Madison General Ordinances in regard to storm water management at the time they develop."
7. A minimum of two working days prior to requesting City Engineering signoff on the CSM the applicant shall contact Janet Dailey (261-9688) to obtain the final stormwater utility charges that are due and payable prior to subdivision of the properties. The stormwater utility charges (as all utility charges) are due for the previous months of service. All charges shall be cleared prior to the land division (and subsequent obsolesces of the existing parcel).
8. Wisconsin Administrative Code A-E 7.08 identifies when Public Land System (PLS) tie sheets must be filed with the Dane County Surveyor's office. The Developer's Surveyor and/or Applicant must submit copies of required tie sheets or condition reports for all monuments, including center of sections of record, used in this survey, to Eric Pederson, City Engineering. If a new tie sheet is not required under A-E 7.08, Engineering requests a copy of the latest tie sheet on record with Dane County Surveyor's Office. The Applicant shall identify monument types on all PLS corners included on the CSM. Note: Land tie to two PLS corners required.
9. Prior to Engineering final sign-off by main office for Certified Survey Maps (CSM), the final CSM must be submitted to Engineering Division Surveyor/ Land Records Coordinator for final technical review and approval. This submittal must occur a minimum of two working days prior to final Engineering Division sign-off. E-mail of the final CSM in PDF form is preferred. Please transmit to [epederson@cityofmadison.com](mailto:epederson@cityofmadison.com).

**Please contact John Leach, Traffic Engineering, at 267-8755 if you have questions about the following four items:**

10. The Developer shall put the following note on the face of the plat: "All the lots within this subdivision are subject to impact fees that are due and payable within fourteen days of the issuance of building permit(s)." Note: The final sign-off may be delayed until the transportation impact fees are negotiated or approved by the Council.
11. The applicant shall contact the Department of Planning and Development to comply with MGO Sec. 16.23(3)(d) – Highway Noise Land Use Provisions policies and ordinances.
12. The applicant shall execute and return the attached declaration of conditions and covenants for streetlights and traffic signals prior to sign off. The applicant will need to provide a deposit for their reasonable and proportionate share of traffic signal costs.
13. The following access restrictions shall apply to this subdivision and shall be noted on the face of the CSM:
  - a.) No access shall be granted along the southerly right-of-way line of US Highways 12 & 18.
  - b.) The applicant shall graphically show the "No Access Restriction" on the face of the CSM map.

**Madison Gas & Electric requests that a new utility easement be dedicated with this CSM. The width of the easement varies as shown on the attached drawing to accommodate limited easement, the existing Madison Metropolitan Sewerage District easement and Outlot 3.**

**Please note that the City Real Estate Office is reviewing the report of title provided with this survey and may have comments. That office will send any comments to you by fax. If you have any questions, please contact Jeff Ekola at 267-8719 for more information.**

**As noted above, the outlots created by this CSM shall require further subdivision approval by the City of Madison prior to development occurring.**

A resolution authorizing the City to sign the CSM and any other documents related to the proposed land division was approved by the Common Council on March 4, 2008.

As soon as the comments and conditions have been satisfied as verified with a completed affidavit form (enclosed), the original along with the revised Certified Survey Map, with all signatures and approvals from the reviewing agencies, shall be brought to this office for final signoff. You or your client may then record the certified survey at the Dane County Register of Deeds. For information on recording procedures and fees, contact the Register of Deeds at 266-4141.

Upon acceptance and recording of the certified survey map by the Dane County Register of Deeds, please transfer the recorded volume, document number, and page numbers to the copies and forward a copy to this office for our records. The original survey map with the recording information is permanently kept on file in the Dane County Register of Deeds Office. A copy of the recorded document can be obtained from the Register of Deeds Office, Room 110, City-County Building or the Real Estate Office in the Madison Department of Planning and Development.

Any appeal from this action, including the conditions of approval, must be filed with the Circuit Court within thirty (30) days from the date of this letter. The approval of this CSM shall be null and void if not recorded in **six (6) months** from the date of the approving resolution. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at 261-9632.

Sincerely,

Timothy M. Parks  
Planner
