

Prairie Sea

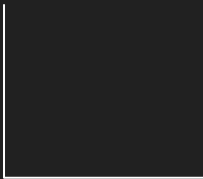

a narrative installation celebrating community

the milligan studio

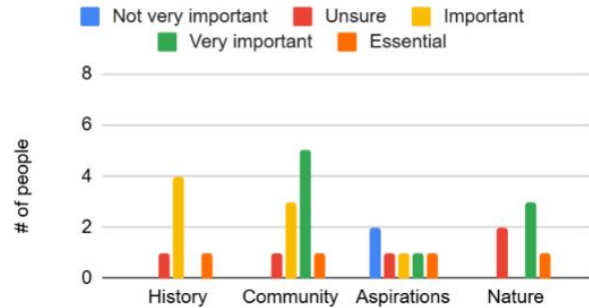

“The integration of art into public buildings allows for the care of the human hand to shape the experience of communal space as a frame for our lives.”

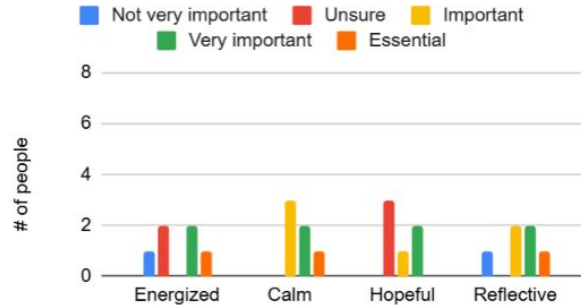

We begin with a
Public Art Survey

Viewing Bench Options

Plow Sail

Approximately 30' (H) x 4' (W)
Bronze, Stainless Steel &
Shatter resistant glass

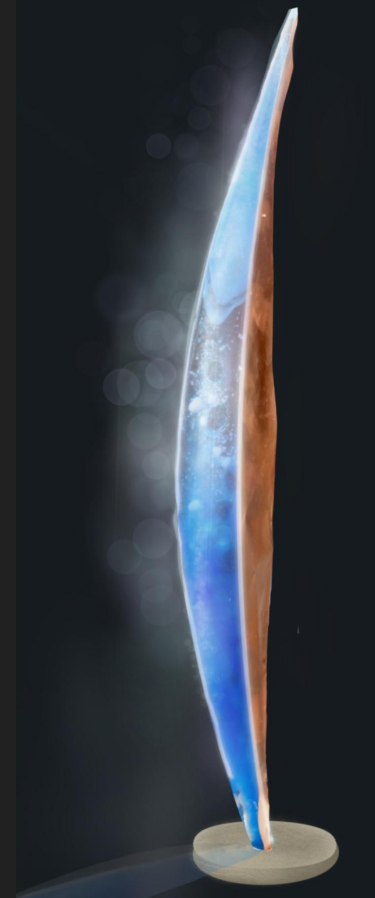

Plow Sail

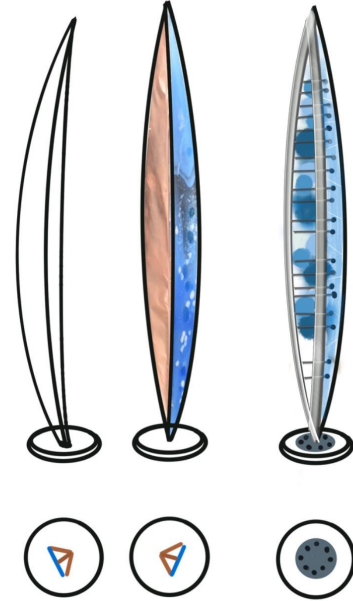

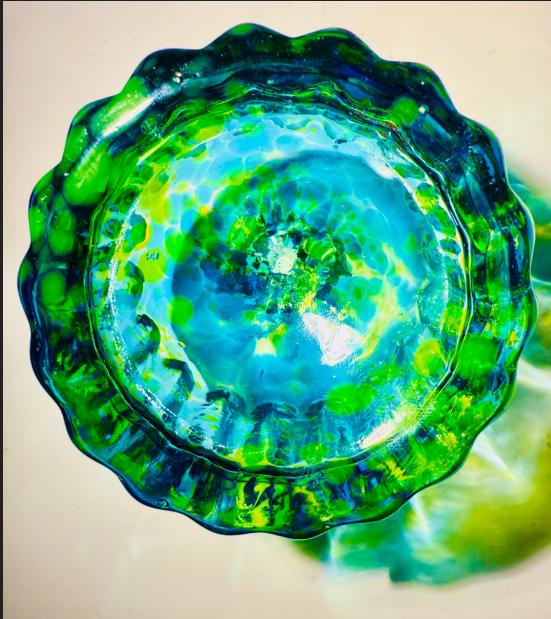

An internal lighting system illuminates dozens of shatter resistant glass “Pollinator” flowers, which cast a joyous light.

Influences:

Snow plows “sailing” through the streets supporting the progress of the community.
Milkweed pods supporting the abundance of the land.

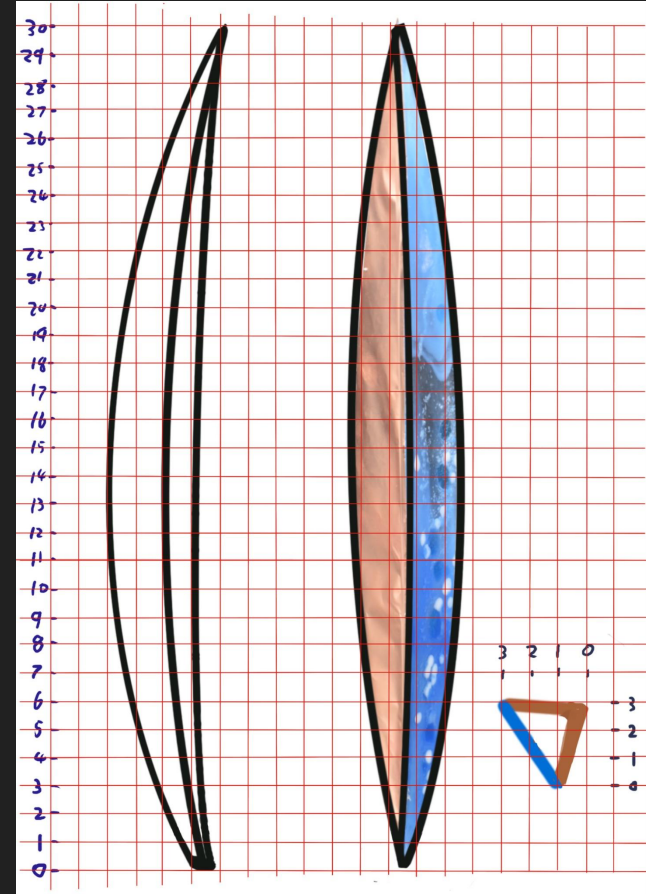

Plow Sail

Steel internal structure to attach glass on interior and on surface. Steel base plate bolted to concrete foundation.

Plow Sail

On-going Community Engagement
Opportunities:

Community Garden

Farmers' Market

Community Garden

Staff has a community garden at Sycamore

Surrounding community could be offered a low cost plot (\$25 per year for insurance & water).

Could be a program under Park & Rec with University (or others) involved.

Farmers' Market

We defy gravity with joy
