Subject: Monona court

I live a half a block from Monona court on lake edge blvd and am used to a one way road in front of my house and my opinion may not hold the same weight as those who own homes on the court.

Besides those who live on the court I mostly see the court used by walkers, bikers and drivers using it as a short cut. I have lived in this neighborhood for 60 + years and remember when it was a two way court and used the court often. I do believe there is a safety issue with allowing two way traffic. There is clearly not enough room for two cars traveling in opposite directions without driving on the lawns of those living on the court let alone room for pedestrians and bikes. With additional housing complexes being built nearby the population will be increasing along with foot, bike and car traffic.

I would support a " no thru traffic" sign with a flag as an option to cut back on shortcut traffic to allow those that live near by better access both ways.
