Dear Ms. Scanlon,

I would like to see the Willy Street COOP, and all businesses within the Third Lake Ridge Historic District, held to the same standard as residential properties. This has most definitely not been the case in the past.

I do not see detail in the currently proposed COOP addition that indicates any attention to sympathy with the surrounding built environment, other than perhaps a minimization of mass. In fact, the stated intention to match existing brick only makes this building all the more unsympathetic. Further work is needed on the plans to ensure that this building blends with the surrounding, and meets requirements for all facade changes in the Third Lake Ridge District.

Thank you.

Sincerely,
Lynn Rusch
1216 Jenifer Street
