

Solid Waste Plan Goals - Framework:

Prevention

- A. Continue efforts to reduce waste from consumers
 - 1. Education efforts to change behaviors
 - 2. Cross-department opportunities – Jeanne Hoffman in Engineering
- B. Continue efforts to divert material from the landfill
 - 1. Organics

Collection

- A. Make recycling more user friendly
- B. Organics collection expansion
- C. Routing

Processing

- A. Create a long term landfill expansion plan
 - Even with increased diversion and more recycling, the landfill will reach capacity in the foreseeable future. A plan to tackle the problem now when not under stress of imminent issues would be beneficial.
- B. Continue efforts to pursue biogas and other methods for keeping food waste from the landfill
- C. Maximize economic value of unwanted materials
 - 1. Continue to find new markets
