

April 29, 2011

Dear Staff,

On Saturday I came to your library for help with my computer questions. It was a very good session. Terry, the volunteer, successfully got the audio on my skype to function. Last night I got to "visit" with my little friend who moved out of state. It was awesome!

Terry also showed me how to back up my files with a device I had purchased some time ago but never knew how to use.

Since I'm retired and not a techy person, it was so very nice for me to get volunteer help. I look forward to a future session with your volunteers.

Sincerely,

Alto Loren
