**Subject:** Agenda Item 12 - North Sherman Study

Janet, could you make my supporting comments available to the Board?

Board Members. I have been following the N. Sherman 4 to 3 lane conversion since 1995, when the first staff report supported the conversion. Now a new staff report with a full turn- over in leadership supports it again. I fully agree with the conclusions of both reports and urge approval by your board.

Even without the bonus of bike lanes the conversion stands on the merits of motor vehicle and pedestrian safety alone. National study after national study, even auto-oriented Iowa DOT, support the type of conversion that is to take place on N. Sherman.

Vote Yes.

Thanks. Mike Rewey
