*in progress, Press Release, “Annual Drinking Water Quality Report Now Available in Spanish,” [El Reporte Anual sobre la Calidad del Agua Potable esta ahora a su disposición en Español]

Conservation

Along with Committee Members Ken Key and Robin Piper, I led a presentation on the recommendations of the Conservation and Sustainability Plan to the City's Sustainable Design and Energy Committee at their July 14 meeting. Larry Nelson was also present to take questions.

The plan's final version is on today's agenda for the Water Utility Board's approval.

Respectfully submitted,

Gail Gawenda
Public Information Officer
