1080 Montreal Avenue
St. Paul, MN 55116

RE: Approval of a demolition permit to demolish a two-story office building and conditional use to construct a four-story 54-unit building in a Commercial Corridor (CC) zoning district at 7941 Tree Lane. (ID 552569; LNDUSE-2018-00081).

Dear Ms. Dyste;

At its September 17, 2018 meeting, the Plan Commission found the standards met and **approved** your client's demolition permit and conditional use requests to demolish a two-story office building and conditional use to construct a four-story 54-unit building at 7941 Tree Lane. The conditions of approval in the following sections shall be satisfied prior to issuance of building permits for the project.

Please contact my office at (608) 243-0455 if you have any questions regarding the following five (5) items:

1. Obtain final approval from the Urban Design Commission.
2. Reduce the number of colors and materials used on the building façade by removing at least one of the fiber cement paneling or lap siding materials, to be approved by Planning staff.
3. Change utility louvers the same color as the surrounding siding color to minimize their visual impact.
4. To better orient the entrance on Tree Lane to the street, reconfigure the walkway to connect the door more directly to the Tree Lane sidewalk, with details to be approved by Staff.
5. Provide pedestrian access and safety details for the crosswalk connecting the main entrance to Tree Lane across the parking lot and driveway for the underground parking, to be approved by Planning and Traffic Engineering staff.

Please contact Jenny Kirchgatter, Assistant Zoning Administrator at (608) 266-4429 if you have any questions regarding the following twelve (12) items:

6. Surface parking located to the side the building shall occupy no more than 25% of the frontage along the primary abutting street.
7. Section 28.185(7)(a)5 requires that if a demolition or removal permit is approved, it shall not be issued until the reuse and recycling plan is approved by the Recycling Coordinator, Bryan Johnson (608-266-4682).
8. Every person who is required to submit a reuse and recycling plan pursuant to Section 28.185(7)(a)5. shall submit documents showing compliance with the plan within sixty (60) days of completion of demolition.
9. A demolition or removal permit is valid for one (1) year from the date of the Plan Commission.
10. This project is designed as a planned multi-use site. Per Section 28.137(2)(a), a planned multi-use site shall have a plan and reciprocal land use agreement approved by the Traffic Engineer, City Engineer and Director of Planning and Community and Economic Development recorded in the office of the Dane County Register of Deeds.
11. Submit an overall site plan showing the entire planned multi-use site including 7933 Tree Ln and 7810 through 7874 Mineral Point Rd.
12. Bicycle parking shall comply with City of Madison General Ordinances Sections 28.141(4)(g) Table 28I-3 and 28.141(11). A minimum of 54 resident bicycle stalls are required plus a minimum of 5 short-term guest stalls. Show the typical dimensions of the bicycle stalls and access aisles on the plans. NOTE: A bicycle stall is a minimum of two (2) feet by six (6) feet with a five (5) foot wide access area. A request for a bicycle parking reduction may be initiated by the owner per Section 28.141(5). Information supporting the bicycle parking reduction shall be submitted to support the request.
13. Submit the landscape plan and landscape worksheet stamped by the registered landscape architect. Per Section 28.142(3) Landscape Plan and Design Standards, landscape plans for zoning lots greater than ten thousand (10,000) square feet in size must be prepared by a registered landscape architect.
14. Verify that planting beds or planted areas contain at least 75% vegetative cover mulched. Mulch shall consist of shredded bark, chipped wood or other organic material installed at a minimum depth of two (2) inches.
15. Provide details showing that the primary street façade meets the door and window opening requirements of Section 28.060(2)(d). For residential uses at ground level, a minimum of fifteen percent (15%) of the ground level of residential facades or side and rear facades not fronting a public street shall consist of windows and door openings. On upper stories, window or balcony openings shall occupy a minimum of fifteen percent (15%) of the upper-story wall area.
16. Per Section 28.186(4)(b), the property owner or operator is required to bring the property into compliance with all elements of the approved site plans by the date established by the Zoning Administrator as part of the site and building plan approval. Work with Zoning staff to establish a final site compliance date.

17. Signage approvals are not granted by the Plan Commission. Signage must be reviewed for compliance with Chapter 31 Sign Codes of the Madison General Ordinances. Signage permits are issued by the Zoning Section of the Department of Planning and Community and Economic Development..

Please contact Tim Troester of the City Engineering Division at (608) 267-1995 if you have any questions regarding the following eighteen (18) items:

18. Prior to approval, the owner or owner's representative shall obtain a permit to plug each existing sanitary sewer lateral that serves a building which is proposed for demolition. For each lateral to be plugged the owner shall complete a sewer lateral plugging application and pay the applicable permit fees. The permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>.
19. All outstanding Madison Metropolitan Sewerage District (MMSD) charges are due and payable prior to Engineering sign-off, unless otherwise collected with a Developer's / Subdivision Contract. Contact Mark Moder (608-261-9250) to obtain the final MMSD billing a minimum of two (2) working days prior to requesting City Engineering signoff.
20. Applicant shall revise utility plan to install sanitary sewer lateral to connect to City sewer in Tree Lane.
21. This project falls in the area subject to increased erosion control enforcement as authorized by the fact that it is in a TMDL ZONE. The project will be expected to meet a higher standard of erosion control than the minimum standards set by the WDNR in order to comply with TMDL limits.
22. The Applicant shall submit, prior to plan sign-off but after all revisions have been completed, a digital CAD file (single file) to the Engineering Division with any private storm and sanitary sewer utilities. The digital CAD file shall be to scale and represent final construction. The CAD file shall be in a designated coordinate system (preferably Dane County WISCRS, US Ft). The single CAD file submittal can be either AutoCAD (dwg) Version 2013 or older, MicroStation (dgn) V8i Select Series 3 or older, or Universal (dxf) format and shall contain the only the following data, each on a separate layer name/level number:
 - a. Building Footprints
 - b. Internal Walkway Areas
 - c. Internal Site Parking Areas
 - d. Other Miscellaneous Impervious Areas (i.e. gravel, crushed stone, bituminous/asphalt, concrete, etc.)
 - e. Right-of-Way lines (public and private)
 - f. Lot lines or parcel lines if unplatted
 - g. Lot numbers or the words unplatted
 - h. Lot/Plat dimensions
 - i. Street names
 - j. Private on-site sanitary sewer utilities (including all connections to public sanitary)
 - k. Private on-site storm sewer utilities (including all connections to public storm)

All other levels (contours, elevations, etc) are not to be included with this file submittal.

NOTE: Email CAD file transmissions are preferred to: bstanley@cityofmadison.com (East) or ttroester@cityofmadison.com (West). Include the site address in the subject line of this transmittal. Any changes or additions to the location of the building, sidewalks, parking/pavement, private on-site

sanitary sewer utilities, or private on-site storm sewer utilities during construction will require a new CAD file.

23. The applicant shall submit, prior to plan sign-off but after all revisions have been completed, digital PDF files to the Engineering Division. Email PDF file transmissions are preferred to: bstanley@cityofmadison.com (East) or ttroester@cityofmadison.com (West). The digital copies shall be to scale, and shall have a scale bar on the plan set. (POLICY and MGO 37.09(2)) PDF submittals shall contain the following information:
 - a. Building Footprints
 - b. Internal Walkway Areas
 - c. Internal Site Parking Areas
 - d. Other Miscellaneous Impervious Areas (i.e. gravel, crushed stone, bituminous/asphalt, concrete, etc.)
 - e. Right-of-Way lines (public and private)
 - f. Lot lines or parcel lines if unplatted
 - g. Lot numbers or the words unplatted
 - h. Lot/Plat dimensions
 - i. Street names
 - j. Stormwater Management Facilities
 - k. Detail drawings associated with Stormwater Management Facilities (including if applicable planting plans).
24. The Applicant shall submit prior to plan sign-off, electronic copies of any Stormwater Management Files including: a) SLAMM DAT files b) RECARGA files c) TR-55/HYDROCAD/Etc d) Sediment loading calculations. If calculations are done by hand or are not available electronically the hand copies or printed output shall be scanned to a PDF file and provided.
25. This project appears to require construction dewatering. A dewatering plan shall be submitted to City Engineering as part of the Erosion Control Permit application and plan. If contaminated soil or groundwater conditions exist on or adjacent to this project additional WDNR, Public Health, and/or City Engineering approvals may be required prior to the issuance of the required Erosion Control Permit.
26. Submit a draft Stormwater Management Maintenance Agreement (SWMA) for review and approval that covers inspection and maintenance requirements for any BMP used to meet stormwater management requirements on this project. Include copies of all stormwater, utility, and detail plan sheets that contain stormwater practices on 8.5x14 size paper in the draft document. These drawings do not need to be to scale as they are for informational purposes only. Once City Engineering staff have reviewed the draft document and approved it with any required revisions submit a signed and notarized original copy to City Engineering. Include a check for \$30.00 made out to Dane County Register of Deeds for the recording fee. City Engineering will forward the document and fee for recording at the time of issuance of the stormwater management permit. Draft document can be emailed to Tim Troester (west) at ttroester@cityofmadison.com, or Jeff Benedict at jbenedict@cityofmadison.com final document and fee should be submitted to City Engineering.
27. Provide additional detail how the enclosed depression(s) created by the parking entrance(s) to the below building parking area(s) is/are served for drainage purposes. The building must be protected from receiving runoff up through the 24-hr, 100-yr design storm. If the enclosed depression(s) is/are to be served by a gravity system provide calculations stamped by a Wisconsin P.E. that show inlet and pipe

capacities meet this requirement. If the enclosed depression(s) is/are to be served by a pump system provide pump sizing calculations stamped by a Wisconsin P.E. or licensed Plumber that show this requirement has been met.

28. The applicant shall show storm water "overflow" paths that will safely route runoff when the storm sewer is at capacity.
29. The applicant shall demonstrate compliance with Section 37.07 and 37.08 of the Madison General Ordinances regarding permissible soil loss rates. The erosion control plan shall include Universal Soil Loss Equation (USLE) computations for the construction period. Measures shall be implemented in order to maintain a soil loss rate below 5.0 tons per acre per year.
30. This project will require a concrete management plan as part of the erosion control plan to be reviewed and approved by the City Engineer's Office.
31. 4Prior to approval, this project shall comply with Chapter 37 of the Madison General Ordinances regarding stormwater management. Specifically, this development is required to Reduce TSS by 80% off of the proposed development when compared with the existing site.
32. Complete an erosion control plan and complete weekly self-inspection of the erosion control practices and post these inspections to the City of Madison website - as required by Chapter 37 of the Madison General Ordinances.
33. This site appears to disturb over one (1) acre of land and requires a permit from the WDNR for stormwater management and erosion control. The City of Madison has been required by the WDNR to review projects for compliance with NR216 and NR-151 however a separate permit submittal is still required to the WDNR for this work. The City of Madison cannot issue our permit until concurrence is obtained from the WDNR via their NOI or WRAPP permit process. Contact Eric Rortvedt at 273-5612 of the WDNR to discuss this requirement. Information on this permit application is available on line <http://dnr.wi.gov/Runoff/stormwater/constrformsinfo.htm>
34. As currently designed there is an enclosed depression that is being used for stormwater treatment that will overflow into the underground parking structure. This will not be allowed. The plans shall be revised to show a surface water overflow that will safely route water to the ROW when the storm system has reached capacity.
35. The Applicant's project requires the minor restoration of the street and sidewalk. The Applicant shall obtain a Street Excavation Permit for the street restoration work, which is available from the City Engineering Division. The applicant shall pay all fees associated with the permit including inspection fees. (MGO 16.23(9)(d)(6))This permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>.

Please contact Jeffrey Quamme of the City Engineering Division Mapping Section at (608) 266-4097 if you have any questions regarding the following eight (8) items:

36. The Access Easement per Doc No 5391858 shall be amended as the access and connection will be modified between these two parcels. A recorded copy will be required for final sign off.
37. The recorded copy of the release (or amendment) of the Ingress Egress Easement 4 as granted on CSM No. 8493 shall be provided prior to final site plan sign off.
38. The Second Restated Declaration of Access Easements per Doc No. 2843533 (previous easements 2198312 & 2587425) and Amendment per Doc No. 5316618 and partial release per Document 5324980 shall be acknowledged and shown on the plans and revised on the survey.
39. The Ingress Egress Easement over the parcel to the North as set forth on CSM 6635, 8493 and Doc No. 2843533 has been released by Doc No 5324980. A new recorded access easement over the parcel to the north (Lot 2, CSM 8493) will be required prior to final sign off.
40. There is an Access Easement Agreement per Doc No 5324981 benefitting the parcel to the north (Lot 2, CSM 8493) over the northwesterly leg of this site. This shall be shown on the survey and the site plan. Or, if this easement is no longer necessary, a recorded copy of the release shall be provided prior to final site plan sign off.
41. Provide a copy of the recorded reciprocal storm water drainage agreement between the adjacent properties allowing stormwater drainage between the parcels.
42. The address of 7941 Tree Ln will be retired with the demolition of the building. The new building is assigned an address of 7945 Tree Ln.

The site plan shall reflect a proper street address of the property as reflected by official City of Madison Assessor's and Engineering Division records.

43. Submit a Floor Plan in PDF format to Lori Zenchenko (lzenchenko@cityofmadison.com) that includes a floor plan for each floor on a separate sheet for the development of a complete interior addressing plan. The Addressing Plan for the entire project shall be finalized and approved by Engineering (with consultation and consent from the Fire Marshal if needed) prior to the application submittal for the final Site Plan Approval with Zoning. The approved Addressing Plan shall be included in the final application.

For any changes pertaining to the location, deletion or addition of a unit, or to the location of a unit entrance, (before, during, or after construction), a revised Address Plan shall be resubmitted to Lori Zenchenko to review addresses that may need to be changed and/or reapproved. The final revised Addressing Plan shall be submitted by the applicant to Zoning to be attached to the final filed approved site plans.

Please contact Sean Malloy of the Traffic Engineering Division at (608) 266-5987 if you have any questions regarding the following fifteen (15) items:

44. The applicant shall submit one contiguous plan showing proposed conditions and one contiguous plan showing existing conditions for approval. The plan drawings shall be scaled to 1" = 20' and include the following, when applicable: existing and proposed property lines; parcel addresses; all easements; pavement markings; signing; building placement; items in the terrace such as signs, street light poles, hydrants; surface types such as asphalt, concrete, grass, sidewalk; driveway approaches, including those adjacent to and across street from the project lot location; parking stall dimensions, including two (2) feet of vehicle overhang; drive aisle dimensions; semitrailer movement and vehicle routes; dimensions of radii; and percent of slope.
45. The Developer shall post a security deposit prior to the start of development. In the event that modifications need to be made to any City owned and/or maintained traffic signals, street lighting, signing, pavement marking and conduit/handholes, the Developer shall reimburse the City for all associated costs including engineering, labor and materials for both temporary and permanent installations.
46. The City Traffic Engineer may require public signing and marking related to the development; the Developer shall be financially responsible for such signing and marking.
47. All parking facility design shall conform to MGO standards, as set in section 10.08(6).
48. All bicycle parking adjacent pedestrian walkways shall have a 2 foot buffer zone to accommodate irregularly parked bicycles and/or bicycle trailers.
49. All pedestrian walkways adjacent parking stalls shall be 7 feet wide to accommodate vehicle overhang, signage and impediments to walkway movements. Any request for variance shall be submitted to and reviewed by City Traffic Engineering.
50. The applicant shall adhere to all vision triangle requirements as set in MGO 27.05 (No visual obstructions between the heights of 30 inches and 10 feet at a distance of 25 feet behind the property line at streets and 10 feet at driveways.). Alteration necessary to achieve compliance may include but are not limited to; substitution to transparent materials, removing sections of the structure and modifying or removing landscaping elements. If applicant believes public safety can be maintained they shall apply for a reduction of MGO 27.05(2)(bb) - Vision Clearance Triangles at Intersections Corners. Approval or denial of the reduction shall be the determination of the City Traffic Engineer.
51. Per Section MGO 12.138 (14), this project is not eligible for residential parking permits. It is recommended that this prohibition be noted in the leases for the residential units.
52. All parking ramps as they approach the public Right-of-Way shall not have a slope to exceed 5% for 20 feet; this is to ensure drivers have adequate vision of the Right-of-Way. If applicant believes public safety can be maintained they shall apply for a waiver, approval or denial of the waiver shall be the determination of the City Traffic Engineer.
53. Parking deck is insufficiently labeled/dimensioned for a proper review. If the parking does not meet MGO 10.08 the applicant can expect to be required to make major alteration which may or may not impact

structural elements of this site.

54. City of Madison radio systems are microwave directional line of sight to remote towers citywide. The building elevation will need to be reviewed by Traffic Engineering to accommodate the microwave sight and building. The applicant shall submit grade and elevations plans if the building exceeds four stories prior to sign-off to be reviewed and approved by Austin Scheib, (266-4766) Traffic Engineering Shop, 1120 Sayle Street. The applicant shall return one signed approved building elevation copy to the City of Madison Traffic Engineering office with final plans for sign off.
55. Parking stalls that are located next to a sidewalk shall have a barrier between the stall and the sidewalk to serve as protection for any pedestrians.
56. The applicant shall install, or provide an executed copy of a cross-access agreement, a physical barrier of substantial material and construction to prevent vehicular movements onto and off of adjacent sites.
57. Note: If the applicant wishes to reduce impervious surface; they are permitted to reduce their parking stall lengths from 18' to 16' adjacent 7' pedestrian walkways.
58. Senior living facilities, to a greater degree than typical medium to high density residential developments, generate expectations for higher level pedestrian treatments. As such, it is not the recommendation of the Traffic Engineering Department to install a signal or other advanced pedestrian crossing at the intersection of Mineral Point Road and Tree Lane. The proximity of the adjacent traffic signals at Mineral Point Road/High Point Road and Mineral Point Road/East Beltline Highway Ramps would result in significant operational issues at a proposed signal at Mineral Point Road and Tree Lane.

Please contact Bill Sullivan of the Fire Department at (608) 261-9658 if you have any questions regarding the following two (2) items:

59. Provide roof access from one of the exit stairs in accordance with IBC 1011.12.
60. Please consider allowing Madison Fire Dept. to conduct training sequences prior to demolition. Contact MFD Training Division to discuss possibilities: Division Chief Tracy Burrus at tburrus@cityofmadison.com or (608)266- 5959.

Please contact Adam Wiederhoeft of the Water Utility at (608) 266-9121 if you have any questions regarding the following two (2) items:

61. The Madison Water Utility shall be notified to remove the water meter at least two working days prior to demolition. Contact the Water Utility Meter Department at (608) 266-4765 to schedule the meter removal appointment.
62. A Water Service Application Form and fees must be submitted before connecting to the existing water system. Provide at least two working days notice between the application submittal and the requested installation or inspection appointment. Application materials are available on the Water Utility's Plumbers

& Contractors website (<http://www.cityofmadison.com/water/plumberscontractors>), otherwise they may be obtained from the Water Utility Main Office at 119 E Olin Ave. A licensed plumber signature is required on all water service applications. For new or replacement services, the property owner or authorized agent is also required to sign the application. A Water Meter Application Form will subsequently be required to size & obtain a water meter establish a Water Utility customer account and/or establish a Water Utility fire service account. If you have questions regarding water service applications, please contact Madison Water Utility at (608) 266-4646.

Please contact Sarah Lerner of the Parks/Forestry Division at (608) 261-4281 if you have any questions regarding the following seven (7) items:

63. Park Impact Fees (comprised of the Park Infrastructure Impact Fee, per MGO Sec. 20.08(2)), and Park-Land Impact Fees, per MGO Sec. 16.23(8)(f) and 20.08(2) will be required for all new residential development associated with this project. This development is within the West Park-Infrastructure Impact Fee district. Please reference ID# 18151 when contacting Parks about this project.
64. Pursuant to MGO 20.08 (2)(c)2.d. the park impact fee may be reduced for multi-family dwelling units that are limited to occupancy by persons fifty-five (55) years of age or older by appropriated recorded restriction for a period of not less than thirty (30) years.
65. Pursuant to the authority established under Wis. Stat. § 66.0617(7), and in the interests of promoting the development of low-cost housing in the City, low-cost housing is exempt from the park impact fees beginning January 1, 2017. This exemption only applies to those dwelling units or bedrooms within a development that are determined to be low-cost housing. This exemption does not extend to the land dedication requirements set forth under Sec. 16.23(8)(f), MGO, nor any other impact fees that may apply to a development.
66. The park impact fee will be exempt for developments that meet the “low-cost housing” requirements, as defined as rental or owner-occupied housing units that are affordable, as that term is defined in Sec. 4.22(2), MGO, and which meet the deed restriction requirements of Sec. 4.22(7). The determination whether a proposed development will create low-cost housing, and how much low-cost housing it will create, shall be made by the Community Development Division.
67. An existing inventory of trees (location, species, & DBH) and any tree removal plans (in PDF format) shall be submitted to the plans and Brad Hofmann – bhofmann@cityofmadison.com or 266-4816. All proposed street tree removals within the right of way shall be reviewed by City Forestry. Approval and permitting of street tree removals shall be obtained from the City Forester and/or the Board of Public Works prior to the approval of the site plan. There are more existing city street trees on site than on plans.
68. Existing street trees shall be protected. Please include the following note on the site plan: Contractor shall install tree protection fencing in the area between the curb and sidewalk and extend it at least 5 feet from both sides of the tree along the length of the terrace. No excavation is permitted within 5 feet of the outside edge of a tree trunk. If excavation within 5 feet of any tree is necessary, contractor shall contact City Forestry (266- 4816) prior to excavation to assess the impact to the tree and root system. Tree pruning shall be coordinated with City Forestry prior to the start of construction. Tree protection specifications can be found in section

69. 107.13 of City of Madison Standard Specifications for Public Works Construction - <http://www.cityofmadison.com/business/pw/documents/StdSpecs/2018/Part1.pdf>. Any tree removals that are required for construction after the development plan is approved will require at least a 72 hour wait period before a tree removal permit can be issued by Forestry, to notify the Alder of the change in the tree plan.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining permits for your project:

1. After the plans have been revised per the above conditions, please file **eleven (11) sets** of complete, fully dimensioned, and to-scale plans, the appropriate site plan review application and fee pursuant to Section 28.206 of the Zoning Code, and any other documentation requested herein with the Zoning Administrator, 126 S. Hamilton Street. **This submittal shall all also include one (1) complete digital plan set in PDF format.** The sets of final revised plans or documents will be circulated by Zoning staff to the City department staff listed above for their final approval.
2. This letter shall be signed by the applicant to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting conditional use approval.
3. A demolition or removal permit is valid for one (1) year from the date of the Plan Commission. Where the plans have not been altered since issuance of the demolition or removal permit and the permit has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to 24 months from the expiration date.
4. A conditional use approval is valid for one (1) year from the date of the Plan Commission approval. During this time, the applicant must either lawfully commence the use or obtain a building permit and begin erecting the building. If the applicant obtains a valid building permit, construction must commence within six (6) months of the date of issuance. The building permit shall not be renewed unless construction has commenced as is being diligently prosecuted.
5. Any alteration in plans for a proposed alternative use shall require Plan Commission approval, except for minor alterations. The Zoning Administrator may issue permits for minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the City Plan Commission and the conditional use approval standards.
6. The Plan Commission retains continuing jurisdiction over all conditional uses for the purpose of resolving complaints against all previously approved conditional uses.

If you have any questions regarding obtaining your conditional use or building permits, please contact the Zoning Administrator at 266-4551. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at 243-0455.

Sincerely,

Colin Punt
 Planner
