Bailey provided background information on the project.

Morrison said that it was nice to see a building that has changed uses over time be used again and again. He was appreciative they could find relevant uses for these historic buildings and see them be well taken care of. He referenced the staff report, noting that the proposed additions could always be removed and the building would be just fine.

Action

A motion was made by Morrison, seconded by Ely-Ledesma, to Approve the request for the Certificate of Appropriateness with the condition that any exterior lighting will need a separate Certificate of Appropriateness. The motion passed by voice vote/other.
