**Subject:** Stormwater updates

Dear Ledell Zellers,

I strongly support the updates to the stormwater ordinance. City Engineering staff recommended them at the May 18 meeting of the Plan Commission. Given the fact that so-called "500- and 100-year floods" happen relatively frequently, we need to become more resilient in the face of climate change. *I am a supporter of 350 Madison's [Community Climate Solutions Team](#).*"

Sincerely,  
Nancy Vedder-Shults
