

## Proposed Bus Stop Removal

Metro proposes to eliminate bus stop # 1756, on westbound East Washington Avenue at Brearly Street. Several years ago, the corresponding eastbound stop in front of the Madison Credit Union was removed.

Existing inbound stop # 1650 (with shelter) on East Washington Avenue at Ingersoll Street is ~500 feet away and on the same block face. There is also stop #1660, located at the next intersection to the west (Paterson Street). Both of these alternative stops are at signalized intersections with crosswalks. The Brearly Street intersection is not signalized.

### Comparable bus stop boardings (average weekday):

Brearly St:	9.5
Ingersoll St:	65
Paterson St:	27

Anticipated future land use of the parcel adjacent to the bus stop is mixed use, commercial and residential. As of this time, no official development proposal has been submitted.
