Madison, WI 53713-3398

PRSRT STD
US POSTAGE PAID
MADISON, WI
PERMIT 1390

To protect the environment and serve your neighborhood for years to come, Madison Metropolitan Sewerage District plans to insert a new lining into a sanitary sewer pipe that dates to 1964 and runs in the railroad corridor between Buckeye and Cottage Grove roads. The project will take about a month to complete and will produce some noise, but less disruption than a complete rebuild. The Sept. 5 public hearing will be held on a noise variance to allow for the operation of pumping and other equipment between 7 p.m. and 7 a.m. until the work is completed.

For more on the Pumping Station 10 Force Main Rehabilitation, visit:
