Hello,

I support the Regent Street project road diet proposal, however I oppose bus pull-outs in the proposal. Bus pull-outs slow down buses and make the street wider encouraging higher speeds. They also mean no room for shelters!

I recommend looking at Division Street in Portland for an example of where bus pull-outs were removed on a fairly similar street project:

If you go back in time to 2009 you can see it used to be a 4-lane street like Regent st. Please see attachments for what I mean.

Thanks
Alex
