

# MEMO

**TO:** Pam Rood, CDBG Committee

**FROM:** Lorri Wendorf, staff to the Allied Area Task Force

**DATE:** March 31, 2011

**RE:** Allied Task Force Safety & Security Report/Resolution

The Allied Task Force (ATF) spent considerable time crafting the report on Safety & Security entitled *Improving the Safety and Security of the Allied Drive Neighborhood* that is before you as a referral from the Common Council. The ATF believes it is important for the Council and other City committees to be informed about neighborhood issues in general and Allied neighborhood issues specifically.

The ATF is interested in any comments or feedback you have with regard to the information and recommendations found in the report. It should also be seen as an action plan on the part of the ATF that may inform requests for funding in the future, but nothing specific is being sought at this time.

Ald. Solomon will not be able to attend the CDBG meeting to discuss this. However, I will be at your meeting to answer any questions or concerns you may have.
