Attachments: Town of Burke Attachment response.pdf

Brenda,

The attached letter was forwarded to us regarding the proposed Cherokee Park, Inc. attachment of land along the north side of Wheeler Road. The City of Madison Common Council will not take action on the proposed attachment on August 3, 2010 and will instead refer the matter to their September 7 meeting pending the outcome of your August 4 Town Board meeting

We certainly hope that the Board will consent to the City's attachment of the entire Wheeler Road right of way width adjacent to CPI's land so that the entirety of that right of way between N. Sherman Avenue and CTH CV can exist in one jurisdiction for ease of future maintenance. However, if the Board should vote to not allow the full right of way to be attached to Madison, we will instruct CPI to amend their petition description back to the centerline of Wheeler Road and then adopt an alternate version of their petition.

Please forward me the action of the Town Board related to this matter at your earliest convenience after the August 4 meeting so that we proceed accordingly. If there are any questions about this petition otherwise, please do not hesitate to contact me.

All the best,

TIM PARKS
Planner, Planning Division
Dept. of Planning and Community
 and Economic Development
City of Madison, Wisconsin
