Subject: Re: June 4 Landmarks Commission Agenda

Side door specs: Feather River 6 lite craftsman, Fiberglass, 36"x80", model GK3170

Garage door specs: Haas American Heritage Tradition, 16'x7', 920 series with glazed 8 pane windows similar to the rendering in the Proposed changes to the plan page of my application.

Also we will match window and door trim details to match the house as closely as possible, and we will work with permitting on any unique header or structural issues, since the window span will be longer than standard.

I revised the Proposed changes to the plan page to reflect these additions. Should I make 12 copies to deliver to you or should i bring to the meeting?

Thanks,

Jeff
