Good afternoon,

I'd like to express opposition to the project being built in that address.

I live right behind it at 514 W Doty St.

Also regardless of the approval or not I would like to mention there are some nice beautiful trees in between that will likely get damaged or worse taken down, not to mention the noise disturbance due to the construction.

Please consider as well the traffic. There is already a construction going on at the 500 hundred block at W Washington ave that is causing several big trucks every day to be lining up all the way till Bedford st even W Main passed Bedford. How would that be handled? Broom is already adapted to bike traffic leaving absolutely no room for trucks to park.

Please let me know if this email counts.

Most people don't pay attention to these notices, but I can tell you very few people would like this to happen.

Have a nice day.
