	**Part of the Carts in Parks program												
2021 Summary of Park Events (as of 8/4/21)													
2021 Total Permits Issued	123												
May-July admin approval	19												
Classes in Parks	6												
Day Camps	4												
<p>Included in the above data are classes and day camps that were approved through a streamlined application process, put into place due to the pandemic. We received a large number of these requests, compared to a normal year. Typically, programs like these would have had to go through a fee modification or contract process, which takes significantly more time. The streamlined process was essential to Madison Parks being able to provide outdoor spaces for these activities this summer.</p>
