

This contract includes several small-scale, traffic-calming and pedestrian-enhancement projects, citywide. All projects have been ranked according to the City's "Safe Streets Madison" program and have been discussed and approved by the Transportation Commission. Projects include the following categories:

- **Speed Humps** for traffic-calming
- **Curb bumpouts** for shorter pedestrian crossings and traffic-calming
- **Concrete islands** for pedestrian refuge and traffic-calming
- **Median nose extensions** for better pedestrian refuge
- **Sidewalk extensions** to fill gaps in sidewalk network
- **Traffic signal enhancements** to add signal head locations for better driver visibility and general upgrades to current standards

The attached plan sheets are organized alphabetically:

1. Buick Street Sidewalk Addition
