Hello,

As a resident of 5816 Halley Way who faces the planned development, I oppose this project.

While I appreciate the need for more housing in Madison, this project, if approved, would cause noise and disruption immediately opposite my home and the street leading to my complex during construction and ultimately lead to a loss of privacy and green space in a neighborhood that needs more of it. Although not an intentional, planned green space, the current lot provides a safe haven for many species and, I think, is beneficial to those who live around it for the bird song, shade, and beauty it adds to our daily lives. It helps diffuse and distract from the constant highway noise nearby. It was one of the reasons I chose to live in this complex. I realize that the comfort and happiness of nearby residents is not enough to stop what is likely a lucrative venture on undeveloped land, but I hope that the commission and council take our perspective into account when making a decision.

Thank you for taking the time to read and consider my comments,
Rebecca
