## Street Tree Report – Land Use Application

In exercising its responsibility under the foregoing ordinances and Department Of Public Works construction specifications, the Forestry Section requires the applicant to submit a Street Tree Report from a certified arborist as part of a [Land Use Application](#) submittal. The Forestry Section will evaluate the report below for street tree protection during construction activities, proposed tree removals and deposits for developers’ agreements as part of the forestry approval process. If it is necessary to remove a street tree, a separate permit from Forestry will be required. The Forestry Section must be informed of any change in this information as it could impact the Forestry Section’s report and approval.

Please note on the **proposed plan** any pruning beyond what is considered to be acceptable by **ANSI A300 pruning standards** or if street tree removal may be necessary due to the impacts of construction, staging/delivery areas, or other activities.

Please attach a **plan** of the proposed project site that includes street trees corresponding to the street tree listed in Section 2 of Street Tree Inventory.

Additional notes:

Inventory #11, the W. Mifflin Plaza or Philosopher's Grove trees were identified as one inventory item as they are all in the same general size, health, species and planting condition. Exceptions were listed in inventory line items 8-10.

Describe impacts and any mitigation actions employed:

With urban construction hardships, the Wisconsin History Center and team have identified the W. Mifflin Plaza (Philosopher's Grove) as the construction and staging space that will have the least impact on pedestrian, vehicular and bus traffic patterns, as well as disruption to other downtown business and parking on State Street and the Capitol Square. The trees impacted by construction and staging in W. Mifflin Plaza and Carroll St. will be replaced in kind with the exception of trees impacting new entries or loading docks to the project.

### SECTION 3 – PHOTO DOCUMENTATION

Please attach photos. The group of photos must include:

- A photo to best depict the street tree relative to the proposed project.
- Date and timestamp of when photo was taken.

### SIGNATURE CERTIFICATION

I hereby certify that I have presented an accurate and truthful representation of the proposed building and construction impacts to City street trees and a complete inventory of affected street trees and their condition herein, and that I will update this information and this report should any of this information change. I have worked to ensure compliance with all accepted professional standards in arboricultural practices and to ensure compliance with all applicable laws, regulations, policies and ethical standards. In the event the contractor has failed to comply with all applicable laws, regulations, policies and ethical standards; or created conditions that may present a hazard to people or property, I have immediately notified the appropriate representative of City of Madison Forestry Section at (608)266-4816.
