	Comments Received on Alder District Concept 6				
	General Comments Received about Concepts / Redistricting Process				

Commont ID	Commenter Name	Consont	Comment
Comment ID	Commenter_Name	Concept	Comment It feels weird that the high density neighborhood in Hill Farms would be separated from the easily walkable Hilldale. The
			neighborhood is growing ever-more walkable and self sufficient, so splitting it will make even less sense as the decade
1	Tyler	5a	progresses.
2	Tom Nordberg	5a	I prefer Concept 5A, which keeps us in our shared community of interest, Alder District 5, the Regent Neighborhood
2	Tom Noraberg	Dd .	Association. I oppose removing the "tree streets" and rest of the area south of Olin from D13. Looking at the criteria, this does nothing to,
			"enhance the participation of communities of color and communities that primarily use a language other than English;" makes
			the awkward and sprawling D14 even more awkward and sprawling, and divides communities of interest, including a
3	Thomas J Mertz	5a	Neighborhood Association, and elementary and middle school attendance areas.
			I am focusing on my neighborhood - for the Regent neighborhood, 5a appears better, since 6 would split the neighborhood up
4	Susan Hollingsworth	5a	into two districts.
			I disagree with moving the Oak Park Terrace community, clearly a Northside neighborhood into the 17th district. The people would be an island completely separated from other neighborhoods. Where would they vote etc? If this area is being moved
5	Sue Gleason	5a	out of the 12th, then it should become part of the 18th.
			I live in district 5 and prefer Concept 5a and not Concept 6. Concept 6 would shift us to another district. We are strongly
			connected with district 5 in sharing the same school area, neighborhood association, proximity to campus and associated issues, and geographic fabric (given the natural boundary that Hoyt and Quarry parks provide. Concept 5a is much more
6	Scott Hackel	5a	appropriate for our area.
			Concept 5a doesn't make a lot of sense splitting the Tenney Lapham neighborhood in half, especially when it's so well defined
7	Ryan Schmudlach	5a	geographically by East Washington, Lake Mendota, and the Yahara River and represented as such in (the preferred) Concept 6.
	Typi Schilladiden	50	I support Option 5a, since it avoids dividing up the Regent Neighborhood Association into three different Aldermanic Districts,
_			and more fully represents Randall School. The other option divides Randall and Franklin attendance areas.
8	Rod McKenzie	5a	This district is too long east to west. Districts should be compact allowing voters with similar geographics and geography-tied
9	Mike	5a	interests to be together.
40		_	Much prefer option 5a compared to option 6. We live in Walnut Grove and feel much more affinity to area east of Gammon
10	Mark Schmitt	5a	than that west of Westfield. Splitting the new large apartment complexes on East Washington between two different districts feels like you're
11	м	5a	disenfranchising Madison's new and more diverse residents.
			As a resident of Walnut Grove, I would prefer that our neighborhood not be split into two districts (as in concept 5a). Being in
12	Liz Fenster	5a	one district allows our community and HOA to work collaboratively and build a strong relationship with one dedicated alder. Fragmenting our neighborhood divides communication and resources.
13	Lauranne Bailey	5a	Please keep the 'tree streets' of Bay Creek Neighborhood with the rest of the neighborhood Dist. 13
			As a longtime resident of district 17, I've been very impressed with Ald. Halverson. I notice BOTH maps take him out of our
14	Kim Kramer	5a	district. This i Although neither map is ideal, I favor 5a over 6. With 5a more of the Regent Neighborhood is kept in the same aldermanic
15	Joyce Knutson	5a	district. Each map suffers from splitting the university student representation.
			No boundary line is perfect, but I think the current boundary between 5 and 13 (maintained in map 5a, but changed in 6)
16	Jordan Ellenbrg	5a	reflects the fact that Dudgeon-Monroe is "oriented towards Monroe St." and shares interests with Vilas.
10	Jordan Ellenbig	Ja	Drawing the line along Odana effectively breaks the Odana Hills Neighborhood association across two districts, making it
17	Jonathan Mertzig	5a	harder to coordinate neighborhood interests with aldermanic representation.
18	Helen Kitchel	5a	The Tree Streets of Bay Creek Neighborhood should not be split into District 14, they should remain in District 13 to keep the
19	Ethan Brown	5a	neighborhood intact under a single alder. My vote is for 5a
		50	I live in Walnut Grove and it appears that 5a would cause our neighborhood to cut into two districts. I feel that our
		_	neighborhood should remain in a single district. Therefore, I am NOT in support of this option. I would prefer our
20	DANIELLE BASHIRULLAH	5a	neighborhood (and neighborhood association) continue to be in one district as in option 6. I feel 5a is a better representation, especially since it keeps the Regent Neighborhood Association in one alder district, whereas
21	Charlie Peters	5a	6 divides the RNA between two alders
22	Charlie Peters	5a	It seems this small section with a few homes and 16 people would be better placed with alder district 11.
22	Code Consultations		I agree with previous commenters that it makes more sense not to split the Tenney-Lapham neighborhood across two
23	Carla Oppenheimer	5a	aldermanic districts. Concept 5a divides Tamarack Trails (a homeowners association that functions like a condo development) across two districts.
24	Cailin O'Connor	5a	Concept 6 is much better for this area.
			Very weird to cut this corner out of district 11! Much prefer version 6. This area and rennebohm park are very integrated into
25		5a	the rest of the hilldale area and the rest of the district 11. In particular, this separates residences from walkable amenities, and it's important to keep those interests connected.
26		5a	Tenney-Lapham should remain within one alder district as it is now.
			I prefer map Sa because I believe Warmer Park should be part of the Northside district, which will now be 18. So much of
27		5a	what happens on the North side happens at Warner so I think it would be foolish to not keep it in the area where people who use it most will be effected.
28	Warren Kmiec	6	I like Concept 6 map better for Alder District 2.
			It seems illogical to separate UW students into two districts instead of keeping the dorms together. Feels as if student voices
29	Tyler	6	are being divided and diluted with this proposal.
			Concept 6 makes more sense for South Park Street's Transit Oriented Development: Bus Rapid Transit and Imagine Madison plans combined will produce major new growth on the commercial property between S. Park and Beld Streets and Concept 6
			will it keep both sides of S. Park St. from Olin Ave. to Wingra Creek united in one alder district.
30	Stanley Jackson	6	It makes a lot more sense to have Concept 6 for Southwest Madison. The compactness of the district would allow residents to
31	Mike	6	better be represented on common problems.
			I believe Concept 6 makes more sense for the Tenney-Lapham area than Concept 5a. In concept 5a, TLNA is split between 2
32	Michael Donnelly	6	districts. Concept 6 breaks along the natural boundary of the Yahara River. My concerns for my Alder are almost entirely based on the isthmus area - flooding, building/growth, noise, parking. Almost all
33	Matt	6	of these change tremendously on the other side of the Yahara. I strongly support 6 over 5a.
24			I prefer map 6. Pine, Hickory, Spruce, and Cedar belong in Bay Creek. The neighborhood name says it all: from the Bay to the
34 35	Laura Zirngible Laura L	6	Creek. I prefer map 6 as it does not split as significantly areas impacted by the airfield.
33	Luuru L		Concept 6 is the best choice for District 6. The First Settlement neighborhood has been part of District 6 for years and should
			remain so. Concept 5a removes it from the district. Concept 6 provides a needed connection from the near east side
36	Larry Jensen	6	Commont continued, Taking Ald Halvergon and CAT is a board and a series and
37	Kim Kramer	6	Comment continued; Taking Ald. Halverson out of 17 is at best bad optics, and more likely dirty politics. I don't put either past the current administration. We are alone!
			Concept 6 seems to make more sense for district 3; it keeps businesses (like walmart and the courtyard hotel) together in
38	Kelly Laabs	6	district 17.
39 40	Kellan Reierson Kathy Roushar	6	Map 6 is slightly better fo district 8 but I believe all of the uw campus dorms should be in the same district. I prefer Concept 6 which honors the current boundaries of the Bay Creek Neighborhood.
7.0	nous nousing	3	Under Version 6, I would be removed from what I consider my alder neighborhood, and put in one further west, which I think
			has somewhat different priorities. I have been part of the Regent Neighborhood for 45 years.
41	Kathleen Fullin	6	Splitting the dorms across two districts seems like a deliberate attempt to dilute student representation. A student-centric
			district provides the best representation for the interests of students, rather than being diluted into other districts.
42	Jonathan Mertzig	6	

			I prefer map 6. I think it more accurately reflects the needs and interests of the neighborhood. Also, putting Greenbush with
43	Joanna Gurstelle	6	the student areas doesn't represent them well I prefer map 6 for all the reasons others stated so well around the tree streets of Bay Creek. Why not consider including Brams
44	jim winkle	6	Addition in D13 as it once was?
			I am voting for #6, I am a Tree Street rep in District 13, using Olin and Park to divide our neighborhood is non-cohesive and
45	jenny hayes	6	would create wealthy vs non-wealthy districts. This came up really fast- why don't you ask us for our ideas? Thanks.
46	Jared	6	As a resident of District 13, option 6 better represents how I experience the district.
			I definitely prefer Concept 6f for my neighborhood, its keeps the existing neighborhood intact and does not split it into 1
47	Helen Kitchel	6	districts. PLAN 6 IS THE MOST COMPACT AND HAS THE LEAST CHANGE. KEEP THE "TREE" STREETS IN THE CURRENT ALDER DISTRICT
48	HARRY DAVID SNOOK	6	PENI UTS THE WOST COMPACT AND HAS THE ELAST CHANGE, REEF THE TIRE STREETS IN THE CONNENT ADDER DISTRICT
			Prefer option #6 to keep Midvale Hts in one district. West Moreland though should be kept intact. Perhaps all of W.M. could
49	Gregory Fischer	6	be kept in Distict 13, Dist. 10 pick up area of Dist. 14 south of Beltline / Arboretum and Dist. 14 grow north into Dist. 13 south of Monona Bay.
		-	It makes little sense to move Odana Hills from the Midvale Heights aldermanic district. This plan lumps us with neighboods.
50	Eric Cabot	6	The Beltline should be the southern boundary.
51 52	Eric Cabot	6	I favor proposal 6 over 5a. I wasn't sure how to add a general comment so I dropped a marker ENA Board has voted in favor of Option 6.
53	Elderberry Neighborhood Association (Sharon Goss) Deacon Todd Martin	6	I prefer option 6
54	David Platz	6	Prefer option 6
			I prefer option 6. I thing the high-density housing on Segoe, Venture, Weston & Overlook should be in the same alder district
55	Dan Schwarz, 625 N. Segoe Rd.	6	as the new housing at Madison Yards. We will have so much in common we shouldn't be split up.
33	Dan Schwarz, 025 N. Segoc Na.	0	Prefer Concept 6. The other would split Midvale Heights Neighborhood into two different alder districts. More confusion.
56	bob	6	
57	Anthony Brylski	6	I prefer Concept 6 because it includes both the airfield and more of the neighborhoods directly affected by the airfield.
			prefer Concept 6 because it keeps Tenney-Lapham intact and keeps more of the dorms together. would have preferred
58	Anthony Brylski	6	Gilman and Langdon to join them. That might have yielded two student-majority districts.
			I prefer Option 6. The district boundary should be defined by geographic features with Wingra Creek defining a natural boundary on the southside of the district. This keeps the defining features of Bay Creek within one district and eliminates
			neighbors having to discuss issues between two districts (ie. impacts south of Olin Drive will have just as much an impact on
59	Andy Meessmann	6	the north side).
			On balance, I prefer Concept 6. Among other things, it (1) avoids splitting the upper State Street commercial district between different districts, (2) shares downtown between three (rather than two) districts, and (3) keeps the geographically isolated
60	Andrew Stevens	6	Bay Creek neighborhood intact in a single district
			I prefer concept 6. I believe Wingra Creek is a better delineation between districts than Olin Ave/S Park St. There are multiple
			properties being redeveloped along S Park St, and neighbors most impacted by the development should be in the same district (Truman Olson, Pick n Save, and 1202 S Park St being recent examples).
61	Alex Elias	6	
62		6	Map 6 better represents the neighborhoods in consideration in district 2
			The issue of student representation lays bare the need for better representation than Single-Member Districts can provide. Fairly, Students would elect 2 or 3 alders, and splitting them across districts is necessary since there are more than would get a
			district, but Single Transferrable vote could allow students regardless of district to more accurately express their values in
63	Tom	General	Madison politics.
64	Susan Hollingsworth	General	I do not live in a dormitory, but it looks to me like both plans 5a and 6 split the dormitories up, and wouldn't it make more sense for them to be together so that alderperson could get a good feel for the needs of students?
			As a resident of District 8, I feel as if these redistrict concepts separate students a lot. I think it would be a lot better if students
65	Sam		
		General	were kept together in 2 districts instead of multiple. Raced on the proposed radistricting what affect will these changes have on the MPD coverage of the territories?
66	Maureen Engelberger	General	were kept together in 2 districts instead of multiple. Based on the proposed redistricting, what affect will these changes have on the MPD coverage of the territories??
66 67			Based on the proposed redistricting, what affect will these changes have on the MPD coverage of the territories?? Shouldn't the student population remain
67	Maureen Engelberger Kellan Reierson	General General	Based on the proposed redistricting, what affect will these changes have on the MPD coverage of the territories?? Both of these proposed maps dilute the voting power of students and remove our voices from city politics. The district 8 seat has, in recent years, been one of the few ways for students to be heard at the city level, and one of the few seats that actually pushes back against the University's blatant disregard for the Madison community and public health. As the pandemic rages on, as climate disasters and violent right wing extremism around the country worsen year after year and march inevitably towards our town, the student seat will be an invaluable partner in creating a livable and secure future, as a representative of the generation that will live with the mistakes of the past 50 years. Eliminate it at your own peril. It hink that the parcel for Ashbury Woods Condominiums should be moved to the district immediately south or west of its present district. I believe this because it is continuing growth in those directions that has most affected residents of Ashbury Woods. When I moved h
67 68 69 70	Maureen Engelberger Kellan Reierson Jordan Ellenberg Jess Janice Knapp-Cordes	General General General General	Based on the proposed redistricting, what affect will these changes have on the MPD coverage of the territories?? Shouldn't the student population remain Undergraduate students living in dorms are a natural political community, and as such I think we should avoid to the greatest extent possible splitting that community into separate aldermanic districts. Eagle Heights Resident here. I would feel more represented if I was included in a student district. I don't think we'd have a voice if Eagle Heights was put with a near-west side district like DS. I'm not too challenged by the technology here, although the menu bar at the top is nothing I've ever seen before. The most helpful thing for me was the two maps given separately; I could toggle between the 2 and see how districts were different. But I have no criteria for making a comment other than that my district, #4, changes from one map to another. I absolutely don't know what to say to you! But thanks for letting me know about the proposals and giving me a chance to comment. Both of these proposed maps dilute the voting power of students and remove our voices from city politics.
